Important Information for RF Product

- For optimal performance, place the receiver at least 8 inches (20 cm) away from any electronics devices (ex. computer, monitor, etc.) to avoid interference.
- Do not place receiver on metal surface.
- When you discover others keyboard and mouse interfering with yours, please **Reset** the keyboard and mouse again.
- After installing the driver, Num/Caps/Scroll Lock Functions will show on Screen.
- When you plug in the receiver into PS/2 port, please do make sure your PC is **Power Off**.
- The mouse uses a fast and sensitive 800 CPI optical sensor. It will move faster than normal optical mouse. Please change moving speed from **mice setting.**

FCC Warning!

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by on or more of the following measures:

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions:

(1)this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

The user manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
