

MultiPASS™ MP730

Photo Printer | Copier | Fax | Scanner
With Automatic Document Feeder

The Business Tool for Performance and Creativity.

- Up to 22 ppm black/up to 14 ppm color
- Up to 4800 x 1200 color dpi with microscopic 2 picoliter droplets
- Scan up to 1200 x 2400 dpi optical resolution
- 33.6 Kbps Super G3 Color Fax with 35-sheet Automatic Document Feeder
- Print photos directly from digital camera memory cards
- Edge-to-edge borderless printing and copying

Be Organized, Productive and Creative

The Canon MultiPASS™ MP730 photo printer, copier, fax and scanner is designed for performance and creativity. Each function provides the versatility to make an impressive visual impact – no matter what your company's imaging requirements are today or in the future. The MultiPASS MP730 features the unique Canon Think Tank System™ that combines individual ink tanks with intelligent ink management for ease-of-use and the reduction of wasted ink, resulting in lower printing costs.* This machine provides the solutions to enable your small business to be more organized, productive and creative.

High-quality, high-performance for the small office

The MultiPASS MP730 does it all. It delivers high-quality legal and letter-size copies at speeds of up to 22 copies-per-minute (cpm) in black and white and 14 cpm in color. It also scans documents up to 9600 dpi in brilliant 48-bit color. But it's more than a printer, copier and scanner; it also offers a built-in color fax with Canon's Super G3 high-speed facsimile technology and a convenient 35-sheet Automatic Document Feeder.

Photo-quality printing

The MultiPASS MP730 utilizes advanced technology Exif Print compatibility built-in for smart processing of digital camera images and comes with Canon exclusive Easy-PhotoPrint software to make it easy to print digital photos with a level of accuracy never before possible. It allows you to print directly from digital camera memory cards and produce photo quality borderless 4 x 6, 5 x 7 and 8.5 x 11 inch output without a PC. In addition, Canon's advanced MicroFine Droplet Technology™ helps put truly remarkable photo quality color printing to work for you with up to 4800 x 1200 dpi resolution. This technology features smaller, more precise ink droplets and provides consistent droplet quality. The result is smoother, less grainy prints with incredible detail, enhanced color reproduction and remarkable resolution.

* Will vary based on composition of images/documents printed.
