

IPod Audio Transmitter

Quick Guide

Product shape

Connecting my iPod Audio Transmitter

1. Turn on your Bluetooth Receiver device. The device which the iPod transmitter is to connect. ie. Bluetooth Receiver or Stereo headset.
2. Plug the iPod transmitter into the headphone connector
3. Power on your iPod and press PLAY on the iPod. The iPod transmitter will power on automatically. The iPod transmitter should enter pairing mode indicated by the Red and Blue flashing alternately.
4. Enjoy!

*Note: This device will only work with Bluetooth receiver devices that has "0000" or "1234" as PIN code.

iPod Audio Transmitter LED Indicator

Mode	Idle	Searching last device	Pairing mode	In connection
LED Indicator	None	Red and Blue steady	Red and Blue flash alternately	Blue flash twice every 3 seconds

Operating Procedures

1. Upon power on, the iPod transmitter will try and connect to the last paired device for 10 seconds. If the last paired device is not found, then iPod transmitter will automatically enter pairing mode.
2. Upon disconnection, the iPod transmitter will try to reconnect to the last paired device. If the last paired device is not found, then iPod transmitter will automatically enter idle mode. To power on the iPod transmitter, please remove the iPod transmitter and plug into the iPod again.
3. During pairing mode, if devices are not found within 3 minutes, the iPod transmitter enters idle mode. To power on the iPod transmitter, please remove the iPod transmitter and plug into the iPod again.

Troubleshooting

IPod Transmitter is not powered on when plugged into the iPod.

- Remove the Transmitter and reinstall into the top of your iPod.
- Ensure your iPod is charged and powered on.

After connecting the Transmitter, there is no sound.

- Make sure your iPod is powered on and set to play

There is more than one Bluetooth Receiver device in the same room or range.

- The Bluetooth iPod transmitter will pair with the Bluetooth receiver that was turned on first or is the closest in proximity to the transmitter. If you are paired with the incorrect receiver, turn off the power on the receiver that will not be used
