Setup for Windows 98SE/2000/ME/XP

● **Installing Bluetooth software for Windows**

IMPORTANT: You must install the software before installing the Bluetooth device. During the software installation, you will be prompted to install the device.

Place the installation CD into a CD-ROM drive and setup should launch automatically. If setup does not launch, use Windows Explorer to navigate to the appropriate CD-ROM drive and run **"Bsetup"**.

1. Please select your device and O.S.
2. InstallShield Wizard setup dialog box will automatically be displayed. If the setup program doesn't startup automatically, manually start the setup program by double clicking **Setup.exe** from the Bluetooth software folder.
3. Follow the installation wizard and complete the steps to install Bluetooth software.
4. On the *Welcome* screen, click the **Next** button.
5. When the *License Agreement* screen is displayed, read the License Agreement, then click the radio button to the left of **"I accept the terms in the license agreement"** and click the "**Next"** button.
6. You can choose the destination folder in your system. If you do not want to change the destination folder please click "**Next"**. On the *Destination Folder* screen, click the "**Change"** button to browse to a new destination folder for the Bluetooth software. Otherwise, click the "**Next"** button to accept the default folder.
7. The system is ready to install the Bluetooth software. If you need to review or change any settings, click the **"Back"** button. Click the **"Cancel"** button to exit the Wizard. Otherwise, click the **"Install"** button.
8. For Windows 2000/XP users, system will popup a **"Driver Signature Notice"**, please click the **"OK"** button to continue.

9. During installation, system will try to detect your Bluetooth device. Plug in your Bluetooth device securely when prompted and click "**OK**" to continue, or you can click "**Cancel**" to continue the installation if you don't wish to plug in the Bluetooth device.
10. If you click "OK", the installation program will install the driver for the Bluetooth device automatically.
11. When the installation is completed, click "**Finish**".
12. Click **"Yes"** to restart your computer. If you plan to restart later, click **"No"**.

For more information about the Bluetooth software configuration, please check the User Guide Readme file or the Application Notes on the driver and software CD!

Setup for Mac

Mac O.S. X 10.2 or greater

Mac O.S. X 10.2 has built-in Bluetooth software support for USB Bluetooth. Simply plug in your USB Bluetooth in the USB port. Launch the Bluetooth software from Control Panel and you can start working in the realm of Bluetooth. Check the Apple Help menu or the Readme file on the CD for Bluetooth support.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

IMPORTANT NOTE:

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
