## User's Warning

### User's Warning

To clean this product turn the power off and use only a damp cloth for cleaning exterior of terminal using either water or light detergent. Do not use flammable substances such as benzene thinner

Before the use of this product, read all instructions in your user's manual and keep it for future references.

Do not unplug terminal while it's in use, if you wish to unplug the terminal please make sure the machine is turned off, then unplug it.

Do not attempt to service this terminal yourself, as opening or removing the cover may expose you to dangerous voltage. (Refer all servicing to authorized personnel)

If there is smoke coming out of the terminal turn the terminal off and unplug it from the outlet.

## Regulatory Information

### **FCC compliance Information**

This device complies with part 15 of FCC Rules. Operation is subject to the following two conditions: 1. This device may not cause harmful interference, and 2. This device must accept any interference received. Including interference that may cause undesired operation.

### **Information to User**

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

### **FCC WARNING:**

This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.

### **Body-worn Operation**

This device was tested for typical body-worn operations with the back of the CREDIT/DEBIT CARD TERMINAL kept 1.5cm from the body .To maintain compliance with FCC RF exposure compliance requirements, use only belt-clips, holsters or similar accessories that maintain a 1.5cm separation distance between the user's body and the back of the CREDIT/DEBIT CARD TERMINAL, including the antenna, whether extended or retracted. The use of third-party belt-clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure compliance requirements, and should be avoided.
