2018 DISTRIBUTOR TERMS AND CONDITIONS US & CANADA

PAYMENT AND TERMS

Net 30 days, with approved credit. No early payment discounts will be authorized unless agreed upon by B&K Precision and the distributor in a separate contract.

Note: 30-day terms applied to date of invoice, not date of invoice receipt.

MINIMUM ORDER AMOUNT

B&K Precision requires a \$250 minimum order for products, including instruments and accessories. Orders submitted for the less than \$250 will be invoiced at a reduced discount according to the Distributor Price.

DROP SHIPMENTS

B&K Precision does not process drop shipments.

PRICE TIERS

Distributor Price

To be applied to distributor invoice if:

- (1) Distributor purchased between \$5,000 and \$10,000 of B&K Precision products during the prior B&K Precision fiscal year.
- (2) Prime distributor submits order for less than \$250.

Prime Distributor Price

To be applied to distributor invoice if:

- (1) Distributor's net purchases total at least \$10,000 of B&K Precision products during the B&K Precision fiscal year.
- (2) Distributor promotes B&K Precision products on the distributor's website and/or in the distributor's catalog.
- (3) Distributor stocks a mix of B&K Precision products appropriate for the distributor's customer base.
- (4) Distributor submits an inventory feed to B&K Precision; to be posted at http://www.bkprecision.com/where_to_buy/ and distributor provides a landing page for B&K Precision to link to.

**B&K Precision fiscal year: October 1 – September 30

DFI Price:

DFI (Discount from Invoice) is awarded to distributors that generate purchases per the schedule below during the B&K Precision fiscal year (October 1 to September 30). Purchases must be supported by distributor inventory and will be reviewed at the end of the B&K Precision fiscal year. DFI will be adjusted accordingly and applied to all invoices in the following fiscal year beginning December 1. Contact B&K Precision for more details regarding DFI pricing.

DFI SCHEDULE

TOTAL ANNUAL DISTRIBUTOR PURCHASE VOLUME	DISCOUNT FROM INVOICE (DFI)

CO-OP ADVERTISING ASSISTANCE PROGRAM

Upon request B&K Precision will provide distributor with a formal co-op advertising agreement.

Requirements:

- (1) Distributor must qualify for DFI.
- (2) Distributor must stock a mix of B&K Precision products appropriate for the distributor’s customer base.
- (3) Distributor must submit an inventory feed to B&K Precision; to be posted at http://www.bkprecision.com/where_to_buy/ and distributor must provide a landing page for B&K Precision to link to.
- (4) B&K Precision preapproval required. Upon approval distributor must file advertising claim including proof of advertising expenditure.

FREIGHT

Ex Works Factory (Yorba Linda, CA, US)

LIMITED WARRANTY

B&K Precision warrants all its products to be free of defects in workmanship and materials for a specified period from the date of sale to the original user. A copy of the original user’s invoice (receipt) must accompany any warranty claim.

For complete details, refer to the warranty statement included with each B&K Precision product.

PRODUCT MODIFICATIONS & CALIBRATION

(I) 220V AC Line Configuration

1. B&K Precision will configure any product with switchable AC line voltage (110V / 220V) up to a limit of 10 units per purchase order and per model (no PO splitting) for an additional service fee of \$10 per unit. For quantities of more than 10 units, two options are available: (1) a special factory order will be placed and longer lead times will apply, or (2) the products will be shipped to the distributor with the default AC line configuration of 110V.
2. Products shipped with 220V AC line configuration are non-cancellable and non-returnable.

(II) NIST Traceable Calibration

1. Products calibrated by B&K Precision to NIST traceable standards and shipped are non-cancellable and non-returnable.

RETURN POLICY

“Defective Out of Box” Returns

“Defective out of box” or “Dead on Arrival” (“DOA”) applies to product found defective upon initial use by the end user within 30 days from the date of purchase. B&K Precision recommends that upon receipt of the product, the end user inspect and test the product and contact B&K Precision technical support for confirmation of any suspected defects. If the product is deemed defective by B&K Precision technical support, the end user should contact the distributor for a replacement. The end user should not return the product to B&K Precision. B&K Precision will issue a return authorization (RA) to the distributor upon request. The distributor will be responsible for the return freight and any associated shipping charges.

A 25% restocking fee will be charged to the distributor if:

- (1) The product is returned to B&K Precision without an RA
- (2) The product is damaged
- (3) The product is missing the original factory packaging, any standard accessories, instruction manuals or software.

If no defect is found upon evaluation of the product, B&K Precision reserves the right to cancel the RA and return the product to the distributor in resellable condition, or charge a 25% restocking fee. All RAs will be cancelled automatically after 90 days from the date of issuance.

New Product Return Waiver

B&K Precision considers product to be “new” within one (1) year from date of the product launch. For information regarding product launches please refer to www.bkprecision.com or contact B&K Precision distributor sales. “New” products are eligible for return for a period of one (1) year from date of purchase outside of the standard stock rotation requirements. The distributor must place an order for the new product within 60 days off the product launch date. A 25% restocking fee will be applied if: (1) the unit is returned to B&K Precision without a Return Authorization (RA), (2) the product is damaged or (3) the product is missing the original factory packaging, any standard accessories, instruction manuals or software.

Inventory Adjustment and Stock Rotation Policy

A distributor may return unsold and unused products to B&K Precision under the following provisions:

- (1) B&K Precision preapproved the return
- (2) Only one stock rotation is allowed per B&K Precision fiscal year.
- (3) Stock rotations will be processed in 12 month intervals every fiscal year.
- (4) The dollar amount may not exceed 5% of the total prior fiscal year purchases on a "two-for-one" dollar basis for distributors with purchases up to \$1 Million. Distributors with purchases greater than \$1 Million may not exceed 3% of the total prior fiscal year purchases.
- (5) A request for a Return Authorization (RA) must be submitted together with an offsetting "two-for-one" dollar order. The "two-for one" dollar order may not be used in combination with any other promotion.
- (6) The offsetting purchase order number must be shown on all paperwork.
- (7) B&K Precision will issue credit based on the most recent invoiced price.
- (8) A 25% restocking fee will be applied if: (1) the unit is returned to B&K Precision without an RA, (2) the product is damaged or (3) the product is missing original factory packaging, standard accessories, instruction manuals or software.
- (9) Product returned must be listed on the current price sheet.
- (10) Product is eligible for return under the stock rotation policy one year after the date of purchase.
- (11) The distributor will be responsible for return freight and any associated shipping charges.

Obsolete Products

B&K Precision will notify distributors regarding obsolete products in a timely manner. A distributor may return obsolete products remaining in inventory for full credit outside of the standard stock rotation requirements. Any obsolete product returns must be received by B&K Precision within 60 days of the obsolete notice. A 25% restocking fee will be applied if: (1) the unit is returned to B&K Precision without a return authorization, (2) the product is damaged or (3) the product is missing the original factory packaging, any standard accessories, instruction manuals or software. The distributor will be responsible for the return freight and any associated shipping charges.
