Size:80x113mm

GuruGear Wireless Mouse

OWNER'S MANUAL

GURUGEAR™
the path to happiness.

Model Number: H-ML45

Product Code: 4NN6CR0000010

Congratulations on your purchase of your GuruGear Wireless Mouse. You've selected the latest in technology in both color illuminating and power saving functions

Connection and Pairing: The GuruGear Wireless Mouse is integrated with automatic pairing.

• Turn on your device/computer.
• Connect the nano receiver to the device/computer by inserting it to the USB port.
  o A message will appear on your device/computer – "New hardware installed"
• No extra hardware or steps are needed!

Wireless Mouse Switch Functions:

1. "On" function
2. "On with color illuminating feature" function (middle position)
3. "Off" function

Charging: The GuruGear Wireless Mouse may have a low response rate when the power is low. To charge follow the below steps. It is highly recommended to turn off the color illuminating feature when recharging.

1. Turn mouse to "on" or "off"

2. Connect Micro-USB cord to mouse for charging.

3. Blue light indicates the mouse is charging. Once the mouse is fully charge the blue light will turn off.

Working Distance: 10±2m
Compatible with : Windows/Android/IOS
Size: 4.33 x 2.6 x 1.18 Inches
Weight: 0.044 lb

Federal Communications Commission notice

FCC Label

This device complies with Part 15 of the FCC Rules. Operation of this product is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance with the FCC Rules could void the user's authority to operate this equipment.
