1 | Overview

The Conettix D6201-USB/D6201-500-USB security keys expand the IP account capability of each Conettix D6600/D6100i/D6100IPv6 Communications Receiver/Gateway connected to the Conettix D6200 Programming/Administration Software.

The Conettix D6200 software allows users to view, change, upload, and download programming parameters for a Conettix Communications Receiver/Gateway. The software includes 10 default IP accounts.

2 | Expanding IP account capability

Each security key expands the number of IP accounts that the receiver/gateway can support.

Security key	Maximum supported IP accounts
D6201-USB	3200
D6201-500-USB	500

3 | Programming/Administration software requirements

The following Conettix D6200 Programming/Administration Software version is required:

- 1.05 or higher required for USB security key operation.
- 1.24 or higher required to use 1 security key for each site.
- For older software versions, 1 security key is required for each computer running the D6200 Programming/Administration Software.

4 | Installing the security key

NOTICE!
To load a Conettix Communications Receiver/Gateway with account databases larger than 10 accounts, you must install the security key. Otherwise, only the first 10 accounts in the selected database are loaded.

Installing the USB security key:

1. On the computer that is running the D6200 Programming Software, locate a USB port.
2. Plug in the USB security key. Refer to *Figure 4.1*.

USB Port

Figure 4.1: Plugging USB security key into USB port

When the computer recognizes the security key, the Conettix D6200 Programming/Administration Software loads the additional accounts.
