BY-AU-BE-210-AC

 **Bluetooth®**  
**EXTREME**  
TRUE WIRELESS EARBUDS WITH DIGITAL DISPLAY

Notice: Please read user manual carefully and keep it for your records.

**Package includes**

- 2-Bluetooth® Earbuds
- 1-Charging Case
- 1-Micro USB Charging Cable
- 1-User Manual

**Safety instructions**

- Do not disassemble, throw away or damage this product. Consult your local waste collection agency for proper disposal or recycling methods. You may also go online at [www.call2recycle.org](http://www.call2recycle.org) for a battery recycling drop off location near you.
- Do not abuse this product, and do not squeeze it between heavy Objects. Keep them far away from high temperature and humidity away from and other high frequency transmitter equipment. This will affect the local signal reception, resulting in sound breakup and distortion or disconnection.
- Keep the wireless earbuds away from direct sunlight, fire and high voltage equipment. Do not store the wireless earbuds inside a car during hot weather. Remember, a closed car acts as a greenhouse allowing the inside temperature to possibly reach over 200 degrees.
- Be assured to turn product completely off when plugging and unplugging into outlet.
- Damage, shock, and/or injury can occur if this warning is not heeded properly.

**Charging**

- Insert the earbuds into the charging case and connect a USB charger to the Micro USB Port at the back of the charging case. The digital display will flash while charging and will show 100 when fully charged.

- If the earbuds batteries become depleted, you can insert them into the charge case (if the charge case has a full charge) .
- The LED will glow blue and will begin charging the earbuds. When charging has been completed the blue LED will turn off.

**Pairing**

- Fully charge your True Wireless Earbuds before first use
- Once fully charged open the cover of the charge case
- Remove both earbuds from the case. The indicator lights on both earbuds will flash. Wait until one of them stops flashing.
- Once only one earbud's indicator light is flashing you may now search for BY-BE-210 on your device's Bluetooth list and pair it.
- You can now listen to music or make a call.
- Once you have successfully paired your Journey's to your device the first time as described above you only need to remove them from the charge case and they should connect automatically to your phone if your Bluetooth is turned on.

- If you encounter any issues you can always unpair them from your device and begin this process again.

**Bluetooth® Usage**

Phone call:

- When connected to a device capable of making and receiving phone calls you can short press either earbud button to answer an incoming call.

Listening to music:

- When the earbuds are turned on and connected to the phone or Bluetooth® enabled device you can open the player and listen to music.
- In the process of listening to music press the button once to pause the current music and again to play the music.

Power off:

- Long press the function button to turn the earbuds off.
- Each one needs to be powered off individually.
- Play/Pause: 1 Tap touch control
- Vol+/Vol-: double click touch control
- Prev/Next: Long press touch control

**Specifications**

- Input Power: 5V=DC 1A
- Driver Diameter: 10mm
- Frequency Response: 50hz-20khz
- Earbuds Capacity: 30mAh
- Case Capacity: 300mAh
- Charging Time: Up to 1.5 Hours
- Charging Interface: Micro USB
- Talk/Music Time: Up to 5 Hours (dependent on volume level)
- Total Play Time: 15 Hours
- Standby Time: Up to 100 Hours
- Transmission Range: Up to 3 feet
- Operating Temp: 15° to 102° F

**FCC Statement** FCC ID: 2AHN6-BYBE210

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
—Reorient or relocate the receiving antenna.  
—Increase the separation between the equipment and receiver.  
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference (2) this device must accept any interference received, including interference that may cause undesired operation.
