# OWNER'S MANUAL

## QI WIRELESS CHARGING PAD - SINGLE

**MODEL: ISQIPADS01**

- Please read the owner's manual and use the product correctly
- Read the safety instruction before using this product
- We recommend that you attach a photocopy of your receipt for warranty purposes.

# Disclaimer

All the information, design and specifications contained in this manual were correct at the time of publication.

## Important Safety Instructions

- Only use the AC Power Adapter included in the box.
- This Wireless Charging Pad is for indoor use only. Do not expose the charger to liquids, rain, moisture or excessive heat caused by heating equipment or direct sunlight
- Do not use the Wireless Charging Pad if it has received a sharp blow, been dropped, or damaged.
- To reduce the risk of shock, disconnect the AC Power Adapter from the main socket before attempting any maintenance or cleaning of the Wireless Charging Pad.
- Do not attempt to repair the charger yourself.
- Please do not attempt to disassemble this product.
- Store the charger in a cool and dry place when not in use
- Please keep the Wireless Charging Pad away from children
- Pacemakers may be affected by electromagnetic interference which could cause malfunctions to occur. Make sure the product is at least 22 cm away from anyone with a pacemaker implanted. Also, make sure there is no one using a pacemaker in the immediate surroundings.

## Operating and storage temperature

Operating temperature:      0°C (32 F) – 40°C (104 F)

Storage temperature:        -20°C (-4 F), 60°C (140 F)

# Getting started

## Overview

### Top

### Back

### Front

Red LED On - Charging & Full Charge  
Blue LED On- Charging Complete\*

\* Subject to the Qi receiver, if your Qi receiver doesn't have the design for reflecting signal of Full charging, the LED lights will not turn Blue

## How To Use:

AC Adapter: Connect the DC Jack to the back of the Qi Wireless Charging Pad then connect the AC Adapter to the wall socket

# Mobile / Device Charging

This Qi Wireless Charging Pad adopts Qi, the standard of Wireless Power Consortium. It supports the charging of one Qi-Compatible device with Built-in or Qi-Enabled accessories.

## Charging your device by Qi

Simply place your Qi-Compatible device or device with Qi-Enabled accessories on the Wireless Charging Pad. The LED indicator will turn red when the Wireless Charging Pad detects your device.

\*Mobile device not included

## Charging your device by USB port

This Qi Wireless Charging Pad also comes with an additional USB port for charging non Qi-Compatible devices. The USB port is located at the back of the Charging Pad. You can charge your devices such as Tablets with the 2.1A (Max) input USB Port.

# Technical Specifications

## Qi Wireless Charging Pad:

|                       |  |
|-----------------------|--|
| Power Input           | DC 18V/1A  |
| USB Output            | 5V/2.1A  |
| Wireless Output       | DC 6V-9V / Sinusoidal voltage, 5W  |
| Standby Power         | <0.3W  |
| Wireless distance     | 5-8mm  |
| Coil Alignment        | Guided Positioning with tactile feedback<br>(Magnetic Attraction)                  |
| Compatibility         | All wireless charging receiver terminal facilities<br>that comply with Qi Standard |
| Operating Temperature | 0°C (32 F) – 40°C (104 F)  |
| Storage Temperature   | -20°C (-4 F), 60°C (140 F)   |

## AC Adapter

|              |                   |
|--------------|-------------------|
| Power Input  | 100-240V, 50/60Hz |
| Power Output | 18V, 1.0A         |

# Troubleshooting

Device not charging

- Make sure the AC Adapter is connected to a Power Supply
- Make sure DC Jack is connected to the Wireless Charging Pad
- Please check if your devices are Qi-Compatible
- Move your device directly onto the Qi Charging Zone indicated with the Qi Logo

**WARRANTY NOTICE:** Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
