REMOTE CONTROL KEVIN'S CAR OPERATION/CONTROL INSTRUCTIONS

WARNING:
CHOKING HAZARD - Small parts.
Not for children under 3 years old.

CAUTION

Please observe the following warning.

During Operation

- The transmitter has a range of approximately 26 feet (8m) outdoors. Do not drive the car outside this distance or control of the car will be lost.
- Ensure that all batteries are correctly installed.
- Before using your car you should switch on the power of the transmitter, then turn on the power of the car.
- Do not touch moving parts during operation.

After Use

- When you have finished driving your car, turn the power "OFF" on your car, then turn the controller "OFF".
- Remove the battery from the car controller when not in use.

Storing your car safely

- Always remove all batteries before storing your car.
- Never store your car near water, outdoors or in the rain.
- Immediately switch off your car and transmitter if you see lightning or hear thunder.
- Ideally, store your car in the box in which it was supplied.

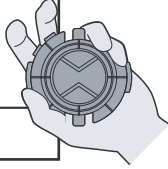

Do not dismantle or tamper in anyway with this RC vehicle and transmitter. The manufacturer and distributor will not accept any responsibility expressed or implied, for accidents or injuries caused as a result of disassembly, modification and/or usage against instruction for this product. Tampering or modification will also invalidate the guarantee of this product.

SETTING UP YOUR RC CAR

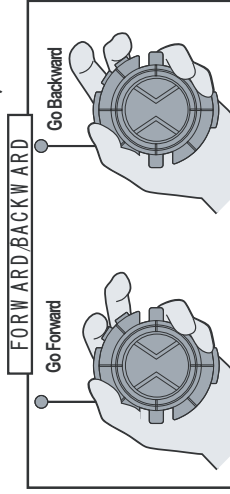

1. INSTALLING 9V DRY CELL BATTERY INTO YOUR TRANSMITTER (BATTERY NOT INCLUDED)

1. Ensure the transmitter power is turned to "OFF"
2. Use a screwdriver (not included) to remove the screw which holds the battery cover.
3. Insert the rear end of the 9V battery in first. Make sure it is facing in the right direction by matching the polarity symbols.
4. Replace the battery cover and reinsert screw.

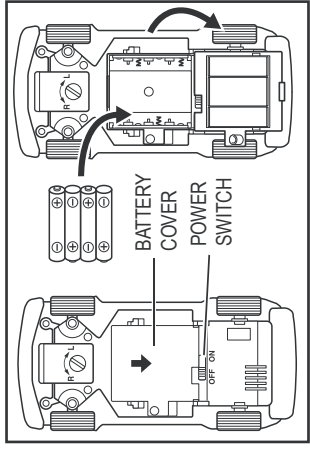

NOTE: WHEN LED LIGHT ON THE TRANSMITTER BECOMES DARK, PLEASE CHANGE TO NEW BATTERY.

HOW TO CONTROL/OPERATE YOUR CAR

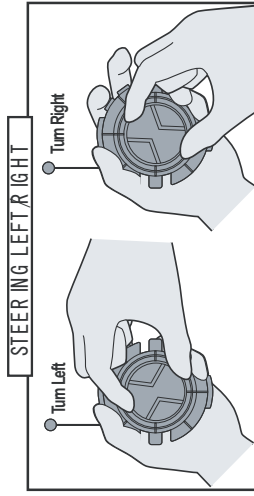

1. Turn the power on both car and the controller to "ON"
2. To move forward, press the left button on the right hand top of the controller.
3. To move backward, press the right button on the right hand top of the controller.

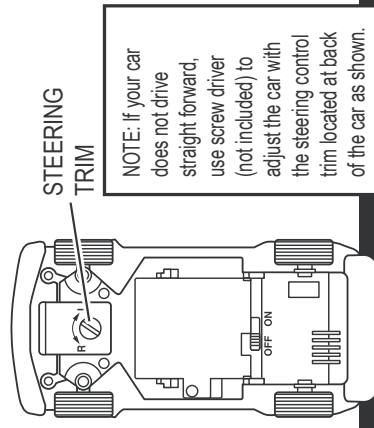

2. INSTALLING AA DRY CELL BATTERIES IN YOUR CAR (BATTERY NOT INCLUDED)

1. Ensure that the power switch of the car is "OFF".
2. Open the battery cover by slightly pushing and sliding down the battery cover toward the back of the car.
3. Insert 4 x AA batteries into battery compartment. Make sure each battery matches polarity marks inside the battery compartment.
4. Close and slide the battery cover back into position.

1. To turn left, twist the steering channel in the middle of the transmitter to left.
2. To turn right, twist the steering channel in the middle of the transmitter to right.

WARNING:
PLEASE DO NOT TOUCH THE ANTENNA WHILE PLAYING

NOTE: If your car does not drive straight forward, use screw driver (not included) to adjust the car with the steering control trim located at back of the car as shown.

BATTERY NOTES:

- Alkaline batteries are recommended for this product for longer playing time.
- Remove all batteries from vehicle and remote controller when not in use.
- Do not mix old and new batteries or different types of batteries.
- Remove weak or exhausted batteries from products.
- Observe battery polarity and install correctly.
- Do not try to recharge non-chargeable batteries.
- Battery installation should be supervised by an adult.
- Dispose of old batteries and properly. Do not burn or bury them.

NOTE: Battery life time may vary depending on battery manufacturer, road condition and how to play.

CAUTION:

Keep batteries away from children.
Batteries may be harmful if swallowed.
Requires 1 9V and 4 AA batteries. Batteries not included.

TROUBLESHOOTING

PROBLEM	Car will not move	Car will not move	Car will not move	Car will not move	Car will not move	No control of car	No control of car	Limited radio range
CAUSE	No battery in transmitter/Car	Battery installation is incorrect	Weak battery in transmitter	Weak battery in car	Radio interference	Radio interference	Radio interference	Radio interference
REMEDY	Install new batteries	Install batteries correctly	Install new battery	Install new batteries	Move to elsewhere to play or wait for a while and try again	Move to elsewhere to play or wait for a while and try again	Move to elsewhere to play or wait for a while and try again	Move to elsewhere to play or wait for a while and try again
