NOTES FOR INTEGRATORS

For a host manufacture's using a certified modular, if (1) the module's FCC ID is not visible when installed in the host, or (2) if the host is marketed so that end users do not have straightforward commonly used methods for access to remove the module so that the FCC ID of the module is visible; then an additional permanent label referring to the enclosed module: "Contains Transmitter Module FCC ID: PWJTMC1C9V" or "Contains FCC ID: PWJTMC1C9V" must be used. The host OEM user manual must also contain clear instructions on how end users can find and/or access the module and the FCC ID.
