## 3. About MH-816

- Multifunction key
- Volume + / Next key
- Volume - / Previous key
- Microphone
- LED indicator
- Charge Socket

## 4. Charging Earphone

- Built-in rechargeable Lithium battery.
- It must take 4 hours when the first time charging.
- Connect the charger cable to the charger connector. The Red indicator light is displayed during charging. Charging the battery fully may take about 2 hours.
- When the battery is fully charged, the Blue indicator light will be on. The fully charged battery has power for up to 6 hours of talking time, up to 6 hours of music playing time, up to 120 hours of standby time.

## 5. Wearing

## 6. Switch on or off

- Press and hold the multifunction key for about 3 seconds, the Blue indicator light is displayed. This shows the earphone is power on.
- Press and hold the multifunction key until the Red indicator light is displayed. This shows the earphone is power off.

## 7. Pair the headset

If your phone supports the A2DP Bluetooth profile and has a music player feature, you can use the phone to make and receive calls, and to play music with the headset.

- Ensure that your phone or music device is on and the headset is off.
- Press and hold the multifunction key for about 5 seconds until the Red indicator light and the Blue indicator light starts to flash quickly.
- Activate the Bluetooth feature on your phone or music player, and set it to search for Bluetooth devices.
- Select the headset MH-816 from the list of founded devices on your phone or music player.
- Enter the passcode 0000 to pair and connect the headset to your device. If your device does not have a keypad, it may use this passcode by default.
- When the headset is connected to your device and is ready for use, the Blue indicator light will flash every 3 seconds.
- Dual Pairing Function: The bluetooth headset has a unique dual pairing function. This allows you to pair 2 devices to the headset simultaneously. For example: you have music on your iPad but not on your phone. You want to listen to music from the iPad and still be able to receive calls from your phone.

## 8. Operating

### Receiving a call

Short press the Multifunction key to receive an incoming call.

### Ending a call

Short press the Multifunction key to end a call

### Making a call

When you make a call via the mobile phone, the call will be transferred to your headset automatically, depending on the phone setup. If your phone does not support this function, short press the Multifunction key to receive an incoming call.

### Voice call activation\*

If your phone supports this feature with the headset, when no call is in progress, press and hold the multifunction key for about 2 seconds. Proceed as described in the phone user guide..

### Redialing the last number\*

To redial the number you last called(if your phone supports this feature with the headset), when no call is in progress, press the multifunction key twice.

### Rejecting a call\*

Press the multifunction key twice to reject a call.

### Volume control

Press either volume key during a call or when you listen to music to adjust the volume.

### Note:

The functions with \* mark must be supported by your mobile phone. For more information, refer to the User Manual of your mobile phone.

## 9. Listen to music:

To listen to music, pair and connect the headset to a device that supports the A2DP Bluetooth profile. (See "Pair the headset"). To play music, use the playback controls on the connected device. If you answer or make a call while listening to the music, the music will pause until you end the call.

| Function      | Description  |
|---------------|--|
| Play or Pause | Press The Multifunction Key  |
| Music Volume  | Press The "+" key   Volume Increase<br>Press The "-" key   Volume Decrease |

## 10. Troubleshooting

### Continuous cracking noise

- To obtain perfect sound quality, please don't take earphone away too much from mobilephone. .

### Unable to hear any sound

- Press the Volume + button on the headset to increase the volume.
- Ensure your headset is properly paired with the mobile phone.
- Ensure the headset is connected to the mobile phone. If the headset is not connected to the phone via the Bluetooth option, please follow the pairing process to connect them. For details, refer to the part "Pairing the Headset" in this manual.

### Unable to connect

The pairing settings between your headset and mobile phone may be deleted. Follow the part "Pairing the Headset" in this manual to pair them again.

### Can this device apply to other Bluetooth devices?

- MH-816 Bluetooth headset is designed to pair Bluetooth mobile phones. In addition, it is compatible with Bluetooth Version 1.1, Version 1.2, Version 2.0 or 4.0 and supports operations upon other Bluetooth devices.
- Some functions, such as "Rejecting a call", "Redialing", or "Voice dialing", are only available while supported by your mobile phone. Please check the phone manual for further information.

## 11. Maintain your earphone

- Store the device after it is power off. Keep it away from extreme temperature (45°C/113°F above, including direct sunlight or -10°C/14°F below) for storage. Otherwise it may shorten the service life of the battery and harm the operation.
- High temperature may also damage the product performance. If the device contacts water or other liquids, wipe away the water stains on the device.

## 12. Protect your hearing

### Warning

The headset is able to provide extreme high volume and sharp tone. Exposure to such a sound may cause permanent hearing impairment. Before using this device, please read the safety guide below.

### Safety guide

Perform the following steps before use:

- Minimize the volume before wearing the headset. Then, adjust the volume to a proper level slowly after you wear it.
- During operation, keep the volume as low as possible. Avoid using the device in noisy surroundings, as you may have to increase the volume. If you have to increase the volume, control the speed for volume adjusting.

### Others

- If you feel uncomfortable or a drumming in your ears, stop using the headset and seek medical assistance immediately.
- Continuous exposure to high volume may have you adapted to the volume level. This may result in permanent hearing loss without causing discomfort.

### Note:

- It is dangerous and illegal (in some jurisdictions) to use the headset when you are driving a car, a motorcycle, ship, or a bike. Acquaint yourself with the local laws and regulations. If you have to use the headset while working on activities that require attention to be focused on, be careful. In this case, take off the headset or turn it off to avoid distraction, and thus the occurrence of accidents or hurts.
- Keeping the device out of the reach of small children: The packing products and the plastic bags for the accessories are not toys. The bag itself and those small fittings inside may cause suffocation. Do not attempt to disassemble the device. No parts embedded can be replaced or repaired by users. Only authorized dealers or maintenance centers can disassemble this product. For changes of any parts due to any reasons, including normal wear, break, or damages, contact your dealer.

Do not use your headset at areas with flammable gases. This may cause a fire.

## **Federal Communications Commission (FCC) Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Warning:** Changes or modifications made to this device not expressly approved by SHENZHEN CHENGYAN SCIENCE & TECHNOLOGY CO., LTD may void the FCC authorization to operate this device.

**Note:** The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
