Input power: USB 5V
Li-ion Battery 800 mAh

OPERATION
CHARGING

Before using this speaker it is recommended that you fully charge it using supplied USB charging cable. Initial charging will take up to 6 hours (we recommend not to charge more than 12 hours). Additional charges should last 3-4 hours.

- Charging is indicated by a solid red LED light in front of the speaker;
- charging is complete when the red light is no longer illuminated.

If the speaker was not use for a long periods of time, make sure to charge the speaker fully before using it again.

Charge through a computers USB port or USB wall charger (charger must be 5V & 1000mA output).

PAIRING BLUETOOTH

Please make sure that the “Bluetooth” setting of your Bluetooth device (i.e. phone, tablet, etc) is turned ON before attempting to pair your speaker with it. Generally, your digital device will display a list of bluetooth devices that it is able to connect to. Your speaker will be displayed under “SoundPal”. (Note: if your device requires a password to connect, enter “0000”).

List-Group">

- Turn the speaker ON and it will immediately go into pairing mode and become “discoverable” by other devices.
- Once connected, any audio that normally plays through your device will now play through the speaker.

In addition to connecting via bluetooth, you can connect to the speaker directly using the included AUX cable. Plug one end of the AUX cable into your device and the other end into the speaker.

HANDS FREE CALLING (Built-in Microphone)

You can listen and talk through the speaker in place of your mobile phone.

List-Group">

- Answer Incoming Calls - While connected to your mobile phone, incoming calls will ring through the speaker, to answer a call press the “phone button.” To hang up, press the “phone button.”
- Make Outbound Calls - While connected to your mobile phone, dial the number you want to call on your mobile phone and press call.
- To redial the last number from your log list double press the “phone button.”

IMPORTANT SAFETY INSTRUCTIONS

List-Group">

- Read and keep these instructions
- Heed all warnings and follow all instructions
- Do not use this apparatus near water
- Clean only with dry cloth
- Do not block any ventilation openings. Install in accordance with manufacturers instructions
- Do not install near heat sources such as radiators, heat registers, stoves, or other apparatus that produce heat.
- Use only accessories specified by the manufacturer.

List-Group">

- Refer all servicing to qualified personnel only. Do not try to self-service the unit if the unit has been damaged in any way.
- Apparatus shall not be exposed to dripping or splashing.
- Do not place any sources of danger on the apparatus (e.g. liquid filled objects, lighted candles.)
- Battery shall not be exposed to excessive heat such as sunshine, fire or like.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning for Mobile device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
