> SWITCH OFF WHEN ON AN AIRCRAFT

Wireless devices can cause interference in an aircraft. Using a Device in flight is illegal and risky. Please make sure your Device is turned off while in flight.

> OBSERVE ALL SPECIAL REGULATIONS

Follow any special regulations that are enforced in locations such as hospitals. Always switch off your Device whenever Device use is forbidden or when it may cause interference or danger.

Use caution when using your Device near medical devices, such as pacemakers, hearing aids and other electronic medical devices, as it may cause interference and not allow these devices to perform properly.

> INTERFERENCE

An antenna is built-in to the Device and must be not co-located or operated in conjunction with any other antenna or transmitter.

> QUALIFIED SERVICE

Only qualified personnel may install or repair the Device. Installing or

Warnings and Precautions

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- o Reorient or relocate the receiving antenna.
- o Increase the separation between the equipment and receiver.
- o Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- o Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
