FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference, received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device,pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

4-in-1 Fast Wireless Charging Station WITH LAMP

15 WATT

User Manual

ITEM 24944-DI & 24946-DI

Thank you for purchasing the 4-in-1 Fast Wireless Charging Station with Lamp. This all-in-one device allows you to charge up to three devices at one time without the hassle of messy charging cables. The collapsible smartphone holder can be converted from a wireless charging stand to a wireless charging pad. In addition, the built-in lamp provides three different colors of lighting to select from for the perfect amount of light for your workspace or night table.

DEVICE LAYOUT

POWER & CHARGING

This Fast Wireless Charging Desktop Station with Lamp can charge your Qi enabled smartphone at 5 Watt charging speeds and also FAST charge at 10 Watt and 15 Watt speeds. For FAST charging (10 and 15 Watts) there is nothing to select on the charger as different phone brands will accommodate different fast charging speeds automatically. In order to achieve FAST charging speeds (10 Watt or 15 Watt) you will require a QC3.0 adapter (not included), additional info provided below.

1) SMARTPHONE 5-WATT WIRELESS CHARGING:

Using the included charging cable, connect the end with the Type-C connection into the Fast Wireless Charging Desktop Station with Lamp and the other end to a USB Power Source 5V and up to 2.4 Amps (not included). Place your Qi enabled device in the center of the charging stand, when placed correctly the LED light will change from red to green indicating the Qi enabled device is charging. You will also see the charging icon on your phone appear.

2) SMARTPHONE 10-WATT AND 15-WATT FAST WIRELESS CHARGING:

Using the included charging cable, connect the end with Type C connection into the Fast Wireless Charging Desktop Station with Lamp and the other end into a QC 3.0 wall charger (not included). QC 3.0 is a rapid wall charger that will enable the fast-charging features on this unit of 10 Watt or 15 Watt. Place your Qi-enabled devices in the center of the charging stand, when correctly placed the LED light on the charger will change from red to green indicating the Qi enabled device is charging. You will also see the charging icon on your phone appear.

3) APPLE WATCH® WIRELESS CHARGING:

After your charging station is connected to power, place your Apple Watch® on the top wireless charger and your watch will start to charge wirelessly.

4) AIRPODS® & QI ENABLED TRUE WIRELESS EARBUDS CHARGING:

After your charging station is connected to power, place your AirPods® or Qi enabled True Wireless Earbuds in the center of the wireless charging pad in the middle of the device. When placed correctly on the charging pad the LED light in the front will change from red to purple indicating the earbuds are charging.

5) LAMP CONTROLS:

After your charging station is connected to power you can adjust the light color/brightness between three different settings. Touch the Light icon to adjust the lamp color/brightness between warm, cold and subdued light or to turn it OFF.

PACKAGE CONTENTS

- 1* Fast Wireless Charging Desktop Station with Lamp
- 1* Type-C Charging Cable
