About the lights

</div>

A: Capital light

*   When the letters are locked in Capital mode, this white light will be on

B: Power light

*   When the keyboard is battery low, the yellow light will blink.

*   When the keyboard is being charged, this light will light on in red color.

*   When the keyboard battery is fully charged, this light will light on in green color.

C: Bluetooth light

*   When the Bluetooth button is activated and during pairing between the keyboard

and your iphone, this light will blink until the keyboard and iphone is successfully

paired.

*If this is your first time using this keyboard, you also need to complete the following

step.

<div align="center">

Step III Pair the keyboard to your Tablet

(Take Ipad for example)

**Press the Bluetooth bottom of the keyboard to send Bluetooth signal**

↓

</div>

BT Keyboard Case

Turn your Ipad on, and tap "Setting"

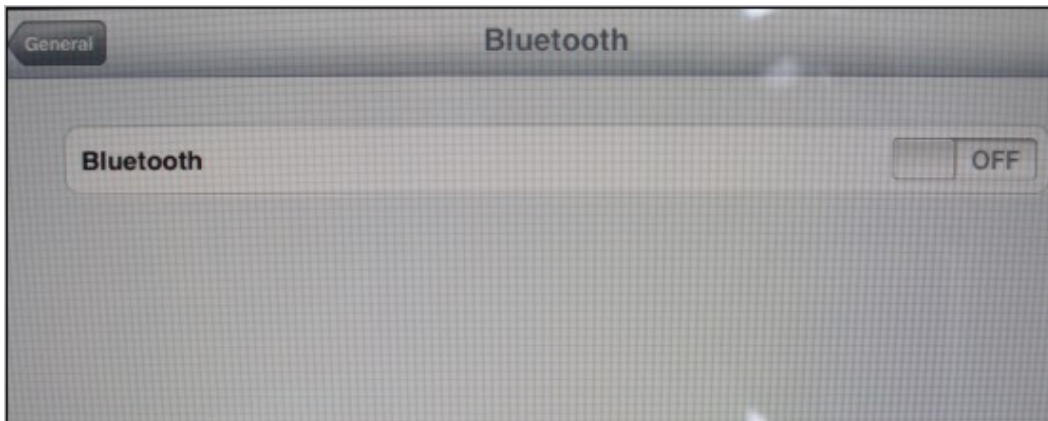

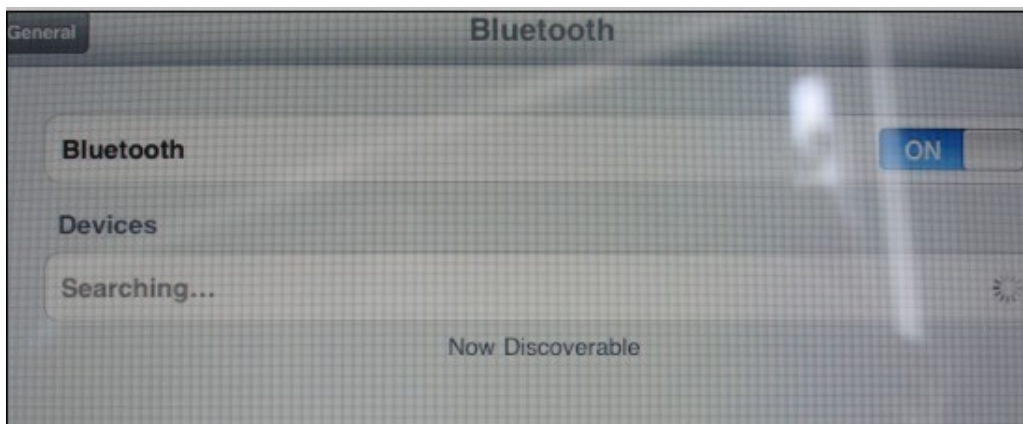

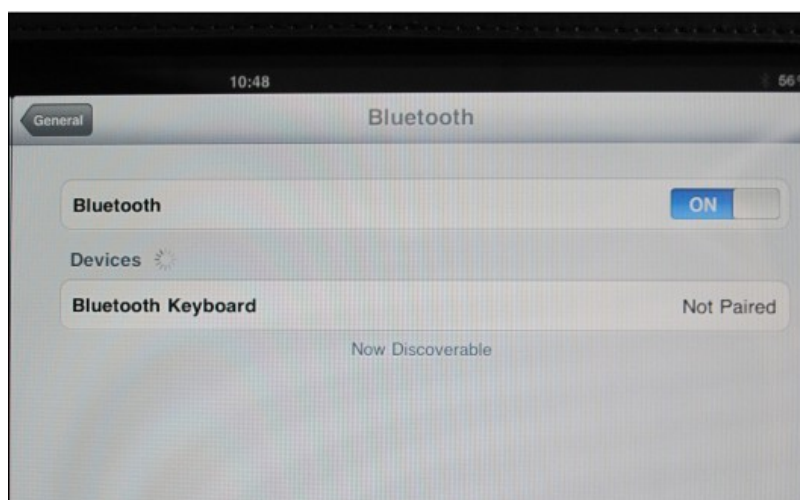

Tap "General"

Tap "Bluetooth"

## Slide the button to the "On" position and your ipad will start searching for Bluetooth devices

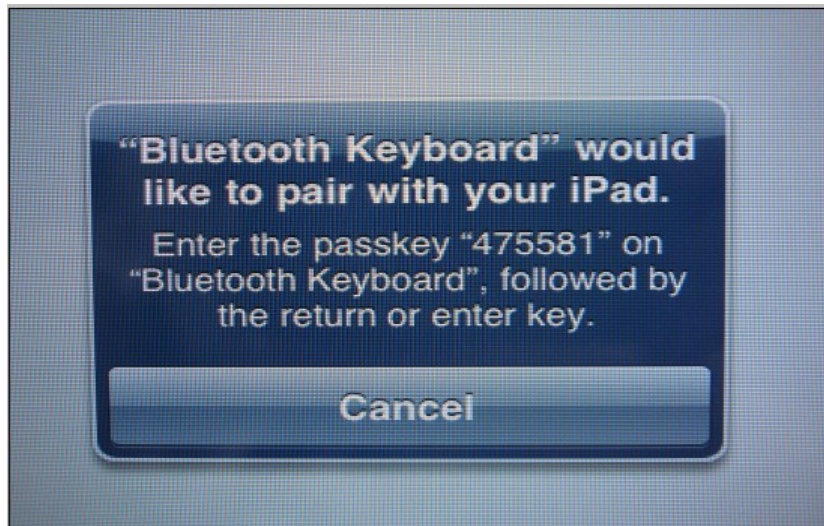

## Tap on "Bluetooth Keyboard"

A blue window with a 4 digit code will appear on your screen

**Enter the passkey into the Bluetooth Keyboard and press the "enter" key**

The Bluetooth keyboard is now successfully connected to your Ipad

Step III is only needed for the initial setup. After your first successful connection, the keyboard will connect automatically to your Ipad when you turn the power on. You may need to tap on the keys to wake it up from hibernate mode.

Technical Specification Of The Product:

Bluetooth Specification： Version 2.0

Operation Current： <5mA

Standby Current: 1.2mA

Operation Voltage： 4.2V

Charging Voltage: 110-240V

Battery Type: Lithium Battery

Charging period： 4hours (For the first time, please charge for 12 hours)

Duration of Charged battery: 45 days

BT Keyboard Case

Trouble Shooting：

If you are unable to connect the keyboard to your tablet, please try the following:

- Check if the battery is low. When the battery is low, some keys will react slowly and even won't work. Then, you should charge the battery.
- Check the power switch, make sure it is on. When it is on, the power light on the right top of the keyboard will flash for two seconds
- Restart the Bluetooth switch, make sure your tablet can find this device
- Ensure the password for pairing is correct.
