

FCC Compliance Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Information for user

Caution: Exposure to Radio Frequency Radiation

This device emits radio frequency radiation. The output of this device is below acceptable FCC skin absorption rate levels if used according to manufacturer's instructions.

Do not place the recorder in any other pack or pouch than that supplied with or recommended by Cadwell. Use of packs or pouches other than those specified or approved by Cadwell could alter the Radio Frequency emission pattern and intensity.

Wireless Performance

The maximum performance for wireless is derived from IEEE Standard 802.11 specifications. Actual performance can vary, including lower wireless network capacity, data throughput rate, range and coverage. Performance depends on many factors, conditions and variables, including distance from the access point, volume of network traffic, building materials and construction, operating system used, interference and other adverse conditions.
