Guide Number: 6809513A04-O

BEFORE YOU BEGIN

Before using this product, read the Important Safety and Legal Information pamphlet and follow its instructions.

Take a moment before you get started to familiarize yourself with your new H220 Headset.

- Earhook
- Speaker
- Power Button
- Microphone
- Volume Buttons
- Call Button
- Indicator Light

① CHARGE
Your Headset's Battery

Charging Port

1 Plug the Motorola charger into the end of the headset.

The indicator light turns on when the battery is charging. It may take up to 30 seconds for the light to turn on. When the headset's battery is fully charged (about 3 hours), the indicator light is steadily lit in blue.

2 Unplug the charger from the headset.

Note: Headset is not functional while charging.

② START BLUETOOTH FEATURE
Your Phone

Your phone's Bluetooth feature is off by default. To use your headset, you must turn on the Bluetooth feature in your phone.

For most Motorola phones (at the main menu):

1 Press ▤ (**Menu**) > **Settings** > **Connection** > **Bluetooth Link** > **Setup**.

2 Scroll to **Power.**

3 Select **Change.**

4 Scroll to **On.**

5 Press **Select** to turn on the Bluetooth feature. The Bluetooth feature remains on until you turn the feature off.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.
③ PAIR
Your Headset

Before you can use your headset, you must pair (link) it with your phone.

Step A - ENSURE HEADSET IS IN PAIRING MODE

Power on headset by pressing the Power button to initiate easy pairing. After a few moments, the indicator light will be steadily lit in blue to indicate headset is in pairing mode.

Indicator Light (steadily blue for pairing mode)

If the headset does not enter pairing mode, see **TROUBLESHOOTING** for help.

③ PAIR *CONTINUED*
Your Phone

Step B - SET YOUR PHONE TO LOOK FOR YOUR HEADSET

For most Motorola phones:

1 On your Motorola phone, press ▤ (**Menu**) > **Settings** > **Connection** > **Bluetooth Link** > **Handsfree** > **Look for Devices**.

The phone lists Bluetooth devices it finds.

2 Select **Motorola H220**.

3 Select **OK** or **Yes** to pair your headset with your phone.

4 Enter the passkey: **0000**

5 Select **OK**.

When your headset successfully pairs with your phone, the indicator light flashes purple and blue.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.

④ TEST AND USE

Your phone and headset are now paired and ready to make and receive calls.
To make a call:

1 Place headset ear bud on your ear with the earhook also securely fitted over your ear.

2 On the phone, dial the number you want to call and press **SEND** key on your phone.

3 If your phone and headset are successfully paired, you will hear ringing on the headset.

After you have successfully paired your phone and headset, you don't need to repeat these steps. For daily use, ensure that your headset is turned ON and that your phone's Bluetooth feature is ON.

To save battery power, turn OFF the headset when you don't use it for an extended time by pressing and holding the Power button.

USING YOUR H220

See
Features and Functions Guide
on the reverse side for information on using your H220

TROUBLESHOOTING

My headset will not enter pairing mode.
Make sure that any devices previously paired with the headset are turned off. If the indicator light is not steadily lit in blue, first turn off the other device, then turn your headset off and on. The indicator light becomes steadily lit in blue indicating the headset is now in pairing mode.

My phone doesn't find my headset.
Make sure the indicator light on your headset is on (lit in blue) and steady when your phone is searching for devices (see step 3).

My headset worked before but now it's not working.
Make sure your phone is on and the Bluetooth feature is turned on in your phone (see step 2). If the Bluetooth feature was turned off or was turned on only temporarily, you may need to restart the Bluetooth feature (see step 2) and pair your phone and headset again (see step 3).
