Install

1 Connect the Receiver to Your Computer

- Please insert the mini USB receiver / dongle into the available USB port.

This mini RF (radio frequency) USB dongle is to be used as the receiving transceiver of RF keyboard and RF mouse. To use this USB dongle receiver, simply plug it into an USB port. The LED button is served as connect button to synchronize with the RF keyboard and the RF mouse. User may press the LED / connect button on the RF receiver dongle, then press the connect button on either the keyboard or the mouse to establish wireless connection.

Resolving Basic Problems

- If your cursor is controlled by another system in an office or multi-user environment, try to unload the batteries, insert them again after 2 minutes and repeat step "Connection".
- A desk made of iron will negatively impact wireless mouse operations.
- If your devices don't function smoothly, you may try the following steps :
 - a. replace with new batteries
 - b. repeat step "Connection"
 - c. move wireless mouse closer to receiver
