■ Régions d'utilisation et de restrictions pour le 600EX-RT/ST-E3-RT

- Le Speedlite 600EX-RT/ST-E3-RT est conforme aux réglementations locales en matière d'onde radio dans les régions suivantes. N'utilisez pas ce produit dans les régions pour lesquelles il n'a pas été conçu.

Brunei, Sri Lanka, Chine, Taiwan, Hong Kong, Inde, Japon, Macao, Philippines, Singapour, Vietnam, Canada, États-Unis, îles Caïmans, Colombie, Costa Rica, Équateur, Le Salvador, Guatemala, Panama, Pérou, Autriche, Belgique, Bulgarie, Chypre, République tchèque, Danemark, Estonie, Finlande, France, Allemagne, Grèce, Hongrie, Islande, Irlande, Italie, Lettonie, Liechtenstein, Lituanie, Luxembourg, Malte, Pays-Bas, Norvège, Pologne, Portugal, Roumanie, Russie, Slovaquie, Slovénie, Espagne, Suède, Suisse, Royaume-Uni, Australie, Nouvelle-Zélande, Liban, Arabie saoudite, Turquie

- Les actions suivantes peuvent être punies par la loi. Démonter ou modifier l'émetteur, ou retirer l'étiquette de certification apposée.

- N'utilisez pas l'émetteur à proximité d'autres appareils émettant des ondes radio comme des appareils médicaux ou des dispositifs électroniques. L'émetteur peut affecter le bon fonctionnement de ces appareils.

Réglementation canadienne sur les interférences radio

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Le présent appareil est conforme aux la partie 15 des règles de la FCC et CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation du débit d'absorption spécifique (DAS).

■ Regions of Use and Restrictions for the 600EX-RT/ST-E3-RT

- The Speedlite 600EX-RT/ST-E3-RT complies with local radio wave regulations in the following areas. Please do not use this product in areas it was not designed for.

Brunei, Sri Lanka, China, Taiwan, Hong Kong, India, Japan, Macao, Philippines, Singapore, Vietnam, Canada, United States, Cayman Islands, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Panama, Peru, Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Russia, Slovakia, Slovenia, Spain, Sweden, Switzerland, United Kingdom, Australia, New Zealand, Lebanon, Saudi Arabia, Turkey

- The following actions may be punishable under law. Disassembling or modifying the transmitter, or removing the certification label on it.
- Do not use the transmitter near other devices that emit radio waves, such as medical equipment or electronic devices. The transmitter may interfere with operation of these devices.

FCC/IC NOTICE

This device complies with Part 15 of the FCC Rules and RSS-Gen of IC Rules.

Operation is subject to the following two conditions;

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation of this device.

Note: This equipment has been tested and found to comply with the limits for class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter except Canon accessories supplied or designated for this product.

Do not make any changes or modifications to the equipment unless otherwise specified in the manual. If such changes or modifications should be made, you could be required to stop operation of the equipment.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65 and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that are deemed to comply without testing of specific absorption ratio (SAR).

Canadian Radio Interference Regulations

The Class B digital apparatus complies with Canadian ICES-003.
