Canon

Color Bubble Jet™ Printer

BJC-3000

- Individual ink tanks save you money
- High-speed printing up to 6 ppm black/4 ppm color
- High-quality printing at 1440 x 720 dpi*
- Built-in USB and parallel ports

Great Value. Amazing Performance.

With the compact BJC-3000 Color Bubble Jet Printer you can bring big printing performance and great value home. Print text documents and e-mail in crisp black at up to 9 ppm.** Print Web pages, greeting cards and more in brilliant color—and all at 1440 x 720 dpi. It's the perfect tool for your busy household.

Technology that saves time and money.

The BJC-3000 printer was designed to make printing easier than ever. It features the Canon Think Tank System™—an intelligent ink-management system that automatically eliminates ink waste and saves you money. It uses individual ink tanks for each color, so you replace only the color that runs out, not the entire cartridge. And its unique optical low-ink sensor alerts you with a "pop-up" on-screen message when ink is low, so you can drop in another one at just the right time. You can also swap the ink cartridge with Canon's optional IS-32 Color Image Scanner Cartridge and instantly turn your BJC-3000 printer into a 720 dpi color sheetfed scanner. The BJC-3000 printer is outfitted with both a parallel and USB port for easy connection to any compatible Mac® or PC.
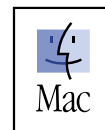

Canon helps you get creative.

Included with your new BJC-3000 printer is Canon Creative—a full-featured software suite of powerful, easy-to-use tools that help you create thousands of fun and exciting projects with ease, such as professional-quality greeting cards, 3-D toys, stickers, calendars, banners, digital photo albums and business materials.

Mac | Windows® Compatible

★ On Canon Specialty Paper.
★★ Using the optional BC-30 Black BJ® Cartridge.

BJC-3000
