Canon

*i*470D
Photo Printer

Easy Previews and Fast Prints with Canon Photo Viewer.

- Print photos directly from digital camera memory cards
- Up to 4800 x 1200 color dpi with microscopic droplets as small as 2 picoliters
- Edge-to-edge true borderless photos
- Bubble Jet Direct printing from select Canon digital cameras
- Up to 18 ppm black/up to 12 ppm color

Printing your digital photos just got easier. And faster.

The Canon *i*470D Photo Printer gives you incredible printing flexibility and increased speed. First, its built-in slots for memory cards support a wide variety of media formats.* You can also connect a compatible Canon digital camera or digital camcorder directly to the *i*470D Photo Printer.** There's no PC required because of the power and flexibility of the Bubble Jet Direct technology built-in. The *i*470D Photo Printer comes with the unique Canon Photo Viewer feature that can be activated when connected to a PC, allowing for fast viewing and printing of digital images. You can display images directly on your computer monitor and use your PC's CPU for high-speed printing.

Advanced printing for better colors.

The *i*470D Photo Printer achieves speeds of up to 18 ppm in black and up to 12 ppm in color, along with a resolution of up to 4800 x 1200 color dpi.*** Canon advanced MicroFine Droplet Technology™ uses a revolutionary nozzle system that ejects consistent prescribed-volume droplets in microscopic sizes. A newly designed print head produces 5-picoliter and ultra-fine 2-picoliter droplets for smooth, more photo-realistic images. The *i*470D Photo Printer also enables you to print edge-to-edge true borderless photos† with the look and feel of a traditional photograph. Print 4" x 6" photos fast—in approximately 90 seconds.

Smart software and a smart design save you time.

The *i*470D Photo Printer supports the worldwide standard Exif 2.2 (Exchangeable Image Format File), so when an Exif-compliant camera captures a photo, important camera settings and shooting conditions are saved in the JPEG image file. Canon exclusive Easy-PhotoPrint†† software analyzes the recorded data and then automatically adjusts printer driver settings for optimum image processing. Also included is Canon Easy-WebPrint†† software designed for simple, fast and hassle-free Web page printing.

* Memory Stick®, CompactFlash™ Microdrive™ SmartMedia™ SD card™ and MultimediaCard™
** For a listing of compatible Canon digital cameras and camcorders featuring Bubble Jet Direct technology, visit **www.usa.canon.com/consumer/bubblejetdirect**
*** Ink droplets can be placed with a minimum pitch of 1/4800 inch.
† Mac OS X borderless printing requires ver. 10.2 or later.
†† Windows® users only.
