

CasaTunes Setup

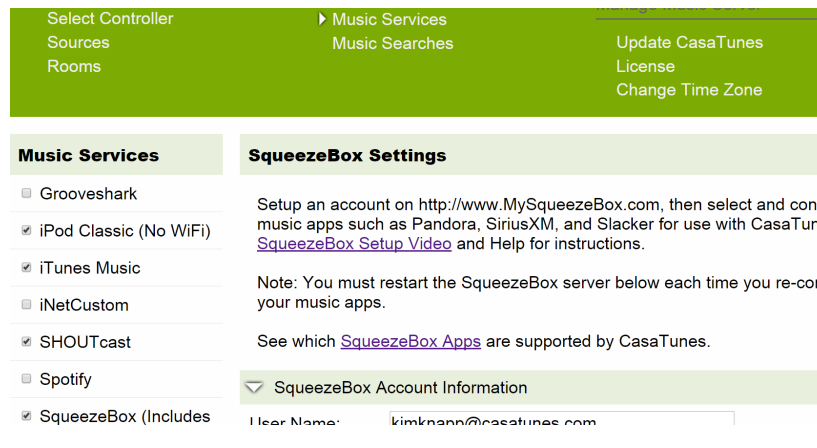

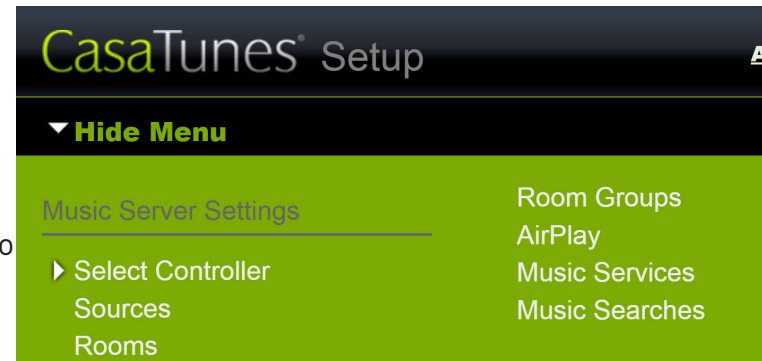

Turn on the system at this time.

Open any browser on the LAN and go to CasaSetup:

PC: <http://CasaServer/CasaSetup>
Mac: <http://CasaServer.local/CasaSetup>

If you are using AirPlay speakers to add wireless rooms, enable sending AirPlay in the AirPlay page.

Use CasaSetup to add names to the sources and rooms and to add room groups.

Enable all of the music services you are interested in.

Some music services require setting up SqueezeBox. Follow the directions in CasaSetup.

Some music services require paid accounts, as noted in CasaSetup.

While in Setup, change the time zone and check the Update settings. Also, you may wish to click on Advanced Settings and use the Project Information page to create a backup of the project.

Control

Use our control apps.

OR

Go to <http://CasaServer/CasaTunes> on any PC, or <http://CasaServer.local/CasaTunes> on any Mac connected to the network
