ELKAY®

sinks + faucets

American Pride. A Lifetime Tradition. Environmental Elkay.

Like your family, the Elkay family has values and traditions that endure. For almost a century, Elkay has been an American-owned and operated company, providing thousands of jobs that support our families and communities. We are proud to say ELKAY USA.

The best way we know how to protect the environment is to build products that endure, minimizing the need for replacement. So keeping concerns such as material integrity, intelligent design, energy savings and water conservation at the forefront of our thinking is not just responsible, it's our philosophy.

Elkay metal and composite sinks are not only made from recycled materials whenever possible, but are also 100% recyclable. All Elkay faucets comply with national and regional low lead legislation and numerous models are offered in low flow options. Additionally, all Elkay manufacturing facilities are designed for maximum efficiency to generate as little waste as possible, and, our packaging is not only 100% recyclable, but is also constructed with over 50% recycled content.

The Big Idea.

It has been said that designing a product is designing a relationship. At Elkay, we embrace this notion. Through times of war, the Great Depression and other character-building periods of American history, Elkay designers have endeavored to create sinks and faucets that are reliable, dependable companions through thick and thin.

The Elkay design legacy began in 1938, when we became America's first large-scale producer of stainless steel sinks for the home, although we'd been designing commercial sinks for almost 20 years. In 1948, Elkay began to draw or form stainless steel bowls thus ushering in a new era for innovative depths, shapes and finishes that has become our legacy. Today we are America's number one selling stainless steel sink company, and so much more.

Rethink Your Sink + Faucet.

Think about the amount of time you or another family member spend at the kitchen sink. It can be a big number, when you consider all the tasks that get handled at the sink, like washing, rinsing, cleaning, food preparation and more. When you have the opportunity to upgrade your sink and faucet spaces, think of the occasion as a way to add time-saving, comfort-inspired companions to the way the daily duties get done.

In 2011, we are pleased to introduce several new kitchen companions that solve everyday problems with brilliance. For example, who doesn't want the "perfect drain," where nothing gets hung-up around the strainer cup, and debris flows seamlessly down the drain? Or, how about the everyday brilliance of the e-dock sink system: an array of fun, magnetic gadgets that stick to the sink's side walls, helping clear clutter off the sink floor and staying organized.

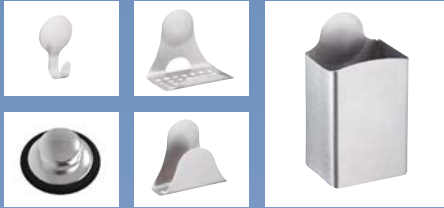

sinks + faucets

everydaybrilliant!™

NEW Elkay solutions that are nothing short of **brilliant!** Remarkable new advances for getting the everyday duties done better, cleaner and more efficiently.

Clear the clutter. Clear your mind, with e-dock.™

Clear counter clutter by keeping the sponge, scrubber, disposer cover and more in no-slip magnetic sink accessories! *Patent pending.*

Look for this symbol for e-dock models. **e**

The perfectly clean Perfect Drain.™

An edgeless drain that integrates seamlessly into the bottom of many popular Elkay sink models. Crumbs and gunk have nowhere to go but down the drain! *Patent pending, available October.*

Look for this symbol for Perfect Drain models. **P**

Divide and conquer, with the Aqua Divide.™ sink feature.

The lower Aqua Divide sink partition enables pot handles to extend over the Aqua Divide and provides the benefits of a large single bowl sink, while still performing as two separate bowls.

See page 24 for Aqua Divide sink models.

in sink erator

Elkay® Perfect Drain™ sinks are designed and approved for compatible disposers manufactured by InSinkErator® utilizing the Quick Lock® mounting configuration. Use of non-approved disposers may void Elkay warranty.

InSinkErator, Quick Lock and the mounting collar configuration are trademarks of Emerson Electric Co.

Scan this code with your Smart phone and learn more about Elkay's everydaybrilliant! innovations.

Work miracles with the Work Bench™ sink.

Miraculously extend your work surface without increasing your sink size with the Work Bench sink models. Work Bench sinks provide the value of a double bowl sink, while adding more counter-like space with a wide center bench area for convenient air drying or resting hot items.

See pages 58 and 59 for Work Bench sink models.

Work smarter, not harder with the Work Shelf sink.

The Work Shelf sink featuring the Smart Support System™ provides removable grids at the ideal height to securely rest a rinsed pot or air dry glasses. These tip-resistant grids are supported by the sink itself, and give you more usable work surface. Each stainless steel grid holds up to 25 pounds making it as useful as it is beautiful.

See pages 24 and 25 for Work Shelf sink models.

Fashion forward, with the new Antique Steel faucet finish.

Perfectly paired with popular stainless steel sinks, appliances, lighting fixtures and cabinet pulls/knobs, the Antique Steel faucet finish is a blend of dark and metallic color values that minimizes finger prints.

See pages 78 and 79 for Antique Steel faucet models.

The Ideal Sink in 4 Easy Steps.

Choosing your new sinks is not a difficult task, but it is an important one. Select the right types, features and materials to suit your family's needs for today and tomorrow.

Get started today, and get what you really want.

Choose Your Sink:

- 1 Type
- 2 Features
- 3 Size
- 4 Material and Color

1 Choose Your Sink Type: Top Mount or Undermount.

Your new sink needs to be in sync with your chosen countertop material.

top mount

A top mount sink has a finished edge or rim and is installed or mounted on the top of your counter. Ideal for replacement sinks, top mount sinks can be removed and installed without damaging countertops.

undermount

An undermount, or recessed sink, is installed under a countertop to create a seamless appearance. The remodeler's choice for granite, solid surface, natural stone or even wood countertop materials, because of the clean, uninterrupted feel.

“ I was able to select the perfect sink for my busy kitchen. ”

2 Choose Your Sink Features: Number of Sink Bowls and Depth.

single bowl

double bowl

triple bowl

The number of sink bowls or basins you need depends on the number of cooks in your kitchen at one time, the size of your cookware and how you like to work. If cooking is a shared activity, you may want to consider a satellite or secondary sink space in addition to the primary sink space. Or, you may want to simply select a primary sink with multiple bowls for side-by-side cooking and cleaning.

At Elkay, you can select from a wide selection of single, double and even triple bowl sinks in top mount and undermount styles. If you cook with a lot of oversized cookware, depth is very important. Elkay offers sinks from 4" deep all the way to 12" deep, to accommodate all sorts of daily needs and possible physical limitations.

“ A design isn't finished until somebody is using it. ”

— Brenda Laurel

3 Choose Your Sink Size and Brilliant Tools.

The right sink size for the right sink base.

The size of your new sinks, whether for a primary sink space or a satellite sink space is somewhat dependant upon the size of the cabinets you want to install the sinks within.

A special sink base cabinet is offered by numerous leading cabinet manufacturers, and is created specially to house an installed sink. Typical sink base cabinets are 27", 30", 33", 36", 39" and 42" wide [left to right]. Your Elkay Authorized Showroom will be glad to assist you with selecting the right sink size for your new sink space.

27" 30" 33" 36" 39" 42"

Elkay offers a number of sink tools that enhance usability, safety and comfort. Following is a snapshot of the most popular.

e-dock™
e-dock accessories easily attach to sink sidewalls

Perfect Drain™
Perfect Drain seamless design eliminates the gap around the drain (Available October 2011)

Aqua Divide™
Lowered center divide allows pot handles to extend over it

Work Bench™
Partition acts as a work surface and will support heavy pots and pans

Work Shelf
Smart Support System™ allows for work shelf to rest approximately 4" below top of sink

Integrated Work Surface
Durable work space for convenient food preparation and clean up

Accessories
Cutting boards, rinsing baskets, colanders, bottom grids and drains

4 Choose Your Sink Material and Color: Stainless Steel, Copper, Fireclay or Granites in Colors.

Today's sink material and color choices are spectacular. Color, texture and sheen all provide ways for you to express your unique style.

Why Elkay stainless steel?

Stainless steel is a timeless, perennial favorite for American homes. The neutral color value and enduring strength make stainless steel a wise investment. While Elkay does offers a variety of stainless steel sink finishes, the exclusive Lustrous Satin finish is the preferred finish for heavy-use, primary sink spaces. Handcrafted with a satin glow, a Lustrous Satin sink will look as beautiful on day 3,000 as it does on day one. In addition, the Elkay Sound Guard® system ensures a quiet time at the sink, minimizing sound and vibration from everyday activities. Select your ideal stainless steel sink experience for primary and satellite spaces from the largest selection of choices on earth, only from Elkay.

stainless steel

See larger chip samples on pages 90 and 91.

Why Elkay Copper?

Hand-hammered craftsmanship that has been passed on from generation to generation is combined with Elkay precision engineering to create a sink for today's modern kitchen that has old world charm. Copper provides a natural anti-microbial surface that will add character over time to produce a rich, natural appearance. The Elkay sound insulation pads minimize sound and vibration from everyday activities to ensure a quiet time at the sink.

Why Elkay fine fireclay?

For a unique sink expression, consider an Elkay fine fireclay sink. For a lifetime of use, Elkay fine fireclay sinks are crafted from the finest materials and glazed at high temperatures creating a smooth finish with a glossy sheen, that's one-wipe clean. For heavy-use, primary sink spaces, Elkay fine fireclay is ideal with its baked-in chip resistance.

Why Elkay granite composite?

Offered in rich hues to complement today's popular granite countertops, the Elkay e-granite™ and Quartech™ granite composite sink solutions complement traditional, transitional and contemporary themes. Rugged durability comes from 85% natural quartz, which is more than most of the competitors' sinks, providing superior heat, scratch, fade and stain resistance. Enjoy the upgraded Quartech granite composite sink, which offers the bonus benefits of a smoother, easy-to-clean, anti-microbial surface.

The Ideal Faucet in 4 Easy Steps.

Choosing your new faucets is not a difficult task, but it is an important one. Select the right types, features and materials to suit your family's needs for today and tomorrow.

Get started today, and get what you really want.

Choose Your Sink:

- 1 Location
- 2 Spout
- 3 Handle
- 4 Finish

1 Choose Your Faucet Type by Sink Space Location.

The primary sink space in your kitchen may require a different size or type of faucet than a satellite sink space in the same kitchen. Faucets by the cooking center for filling pots are another type of faucet, and a sink space in the laundry room or utility area definitely has different benefits for the family. Elkay offers a wide selection of faucet types for all sink spaces.

2 Choose Your Faucet Spout.

Many Elkay faucets are offered with a variety of spouts that include hand sprays that pull-down, pull-out or are on the side. There are also loads of spout shapes and heights to create the perfect balance for you.

pre-rinse

pull-down

side-spray

pull-out

3 Choose Your Handle Type.

A single-lever handle that controls both water flow and temperature is offered on top of the faucet, on the side, or mounted separately from the spout, matching your work style. More traditional, two-handle faucets are also available from Elkay. If you install a top mount sink with a rim that has faucet and accessory holes pre-drilled, you can place a wide variety of faucet types, and pair them with soap dispensers, or, simply cap unused holes with a cover plate.

4 Choose Your Faucet Finish.

Today's faucets are jewelry for your home; they showcase your style, and accessorize in concert with appliances, decorative hardware and lighting. See page 91 for all Elkay faucet finish swatches.

NEW antique steel

What's your style?
 Here's an easy-to-understand 1-2-3 selection process for identifying what feels right for your sense of style.

traditional

I Am Traditional.
 Refined and timeless, a traditional style showcases classic architectural details such as stacked crown molding, split posts, arched valances and decorative furniture legs. Traditional style brings warmth and character to the home. Consider the foodie's choice of an Elkay Gourmet sink and faucet, or the updated Americana feel of an Elkay Explore sink and faucet.

transitional

I Am Transitional.
 A transitional style blends elements of the traditional with the contemporary. If you love classic details, consider mixing traditional shapes and colors with clean contemporary lines to create your own transitional masterpiece. Consider the sophistication of Elkay Harmony sinks and faucets, or the organic curves of Elkay Mystic sinks and faucets, or enjoy the fashion-forward thinking of Elkay Design Inspirations.

contemporary

I Am Contemporary.
 Contemporary style features minimal detailing for a crisp, clean look. Without competition from decorative lines and fussy accessories, color and shape take center stage in contemporary design. Consider the strong lines and commercial inspiration of Elkay Avado sinks and faucets to create your contemporary signature.

“My home has to be beautiful and practical; my kitchen needs to be as hardworking as I am.”

Elevate your culinary experience with the professional grade of Elkay Gourmet. These classics are designed with casual elegance, for the hardest working sink spaces. Meticulous attention to form and function creates a new standard for the at-home connoisseur.

“My home’s interior is an extension of the beauty of nature just outside the door.”

Mystic sinks and faucets take their cue from water itself with naturally flowing shapes and an organic feel. The resulting gentle designs stand out to make a distinctive yet softened contemporary statement.

Fill large pots directly on the countertop instead of having to lift them in and out of the sink with the new “pause” feature available on many Elkay pull-down faucets.

Elkay has been in business for over 90 years. We stand behind all of our faucet products with our limited lifetime warranty. Quality is our top priority.

ACCESSORIES

Why an Elkay custom designed bottom grid?

- Protect the bottom of your sink
- Custom designed to completely cover the entire bottom of the sink bowl
- Properly positioned opening for convenient access to drain or disposer
- Built from solid stainless steel to resist corrosion and provide years of service

ACCESSORIES

Why an ElKay custom designed rinsing basket?

- Securely hold freshly washed dishes and fine crystal
- Organize your sink bowl area
- Custom designed for maximum size within each ElKay sink bowl to hold larger plates and serving dishes
- Built from solid stainless steel to provide years of use

Why an Elkay custom designed cutting board?

- Designed to securely lock into your Elkay sink providing confidence the board will not shift around during use
- Manufactured from the finest hard woods grown in a sustainable manner
- Properly sized according to your sink bowl
- Built to provide years of daily use

Why an Elkay drain?

- A finish option to match your Elkay sink, completing your sink purchase
- Color coordinated drain and disposer cover option to match Elkay e-granite and Quartech sinks
- Variety of styles and functions to match your individual needs
- Manufactured out of the highest quality stainless steel and brass to resist corrosion caused by abrasive chemicals and detergents
