comfort & control kit quick start guide

Congratulations on your purchase of an Iris™ comfort & control kit. It's easy to install your system. Let's get started.

Kit contains:

- smart hub
- smart plug
- smart thermostat

Batteries, Ethernet cable, power cord and mounting tape included.

ready to install?

Before you get started, please check that you have the following:

- An hour to spare. Be prepared to complete the installation of all kit components at the same time.
- Home router with an open Ethernet port
- Open power outlet near your router
- Broadband always-on internet service

Follow these easy steps to install your comfort & control kit.

- Visit lowes.com/iris
- Click on **Register** and we'll walk you through the steps.
- For additional help please visit lowes.com/iris/support.

There are four stages to complete the Iris™ set-up. Once you register, we'll walk you through each:

1. Hub Set-up
2. Account Details
3. Service Options
4. Powering and Pairing Devices

For more information please call 1-866-555-IRIS.
