

KH900

PORTABLE CHARGERS

MODEL K9000 12 Volt Power Supply

- **JUMPSTARTS VEHICLES** Packs the power to jumpstart cars, boats, RVs for peace of mind — anytime, anywhere!
- **PORTABLE 12 VOLT POWER** Mobile power supply for cell phones, safety lights, air compressors and other 12v accessories.
- **900 PEAK AMPS JUMP START**
- **400 COLD CRANKING AMPS**
- **1 year limited warranty.**
PART NO.: KH900

BATTERY MAINTENANCE

MODEL 87101 Pulse Battery Charger

- **10 amp charging, fully automated** charges to a full charge and then shuts off automatically.
- Pulse charging de-sulfates batteries lengthens battery life.
- Built-in diagnostics detects faulty batteries.
- Microprocessor controlled for faster charging.
- Safety alarm indicates reverse battery connection.
- **Automatically** selects battery voltage — 6/12 volt.

PART NO.: 141-359-000

87101

MODEL 87001

- **1 amp setting** is ideal for charging motorcycles and lawn mower batteries.
- Charges 6 & 12 volt batteries.
- Easy to use, manual controls.
- Use to warm car battery to improve cold weather starting.
- **1 year limited warranty.**

PART NO.: 141-294-005

87001

MODEL 87002 ON-BOARD CHARGER

- **1.5 amp 12v battery charger.**
- **Automatically** shuts off when battery is fully charged, resumes charging if battery becomes discharged.
- Can be permanently mounted on vehicle.
- LED light indicates charging status.
- **1 year limited warranty.**

PART NO.: 141-336-000

87002

MODEL 88100

- **100 amp battery load tester** tests 6 and 12 volt batteries with cranking capacity up to 1000 cold cranking amps.
- Tests 12 volt starting voltage.
- Checks 6 & 12 volt charging system performance.
- **1 year limited warranty.**

PART NO.: 142-007-000

88100

50 years ago Century developed innovative technology allowing battery chargers to harness the transformer of a welder for their charging ability. These products offered exceptional value at less than half of the price of other competitors.

Century was one of the first to pioneer a 110v battery charger and shortly thereafter developed the “boost” feature that revolutionized the industry. The design was an instant success and provided the first real charging option as well as offering a more durable product design.

Look to Century for all your tool and equipment needs.

Leaders in the field of battery chargers for over 50 years

87151C

MODEL 87062C

- 6 amp high (6 & 12V)/ 2 amp low (12V) charge settings.
 - Charges 6 & 12 volt maintenance free and conventional batteries used in cars, trucks, farm equipment, RV and commercial applications.
 - Charges automotive batteries in 6 to 8 hours.
 - Large clamps deliver solid connections.
 - Easy to use, manual controls.
 - 1 year limited warranty.
- PART NO.: 141-194-902

MODEL 87102C

- 10 amp high (6 & 12V)/ 2 amp low (12V) charge settings.
 - Charges 6 & 12 volt maintenance free and conventional batteries used in cars, trucks, farm equipment, RV and commercial applications.
 - Charges automotive batteries in 3 to 5 hours.
 - Large clamps deliver solid connections.
 - Easy to use, manual controls.
 - 1 year limited warranty.
- PART NO.: 141-291-904

MODEL 87105C

- 55 amp engine start helps start stubborn 12V motors.
 - 10 amp high (6 & 12V)/ 2 amp low (12V) charge settings.
 - Charges 6 & 12 volt maintenance free and conventional batteries used in cars, trucks, farm equipment, RV and commercial applications.
 - Large clamps deliver solid connections.
 - Easy to use, manual controls.
 - 1 year limited warranty.
- PART NO.: 141-291-901

MODEL 87106C

- 55 amp engine start helps start stubborn 12V motors.
 - 10 amp high (6 & 12V)/ 2 amp low (12V) charge settings.
 - Automatically shuts off (when set to 12 volts) when battery is fully charged. Resumes charging if battery becomes discharged.
 - Charges 6 & 12 volt maintenance free and conventional batteries used in cars, trucks, farm equipment, RV and commercial applications.
 - Charges automotive batteries in 3 to 5 hours.
 - Reverse connection warning light and charge complete indicator.
 - Large clamps deliver solid connections.
 - 1 year limited warranty.
- PART NO.: 141-291-902

MODEL 87121C

- 70 amp engine start helps start stubborn 12V motors.
 - 12 amp high (6 & 12V)/ 2 amp low (12V) charge settings.
 - Automatically shuts off (when set to 12 volts) when battery is fully charged. Resumes charging if battery becomes discharged.
 - Charges 6 & 12 volt maintenance free and conventional batteries used in cars, trucks, farm equipment, RV and commercial applications.
 - Reverse connection warning light and charge complete indicator.
 - 1 year limited warranty.
- PART NO.: 141-292-903

MODEL 87151C

- 100 amp engine start helps start stubborn 12V motors.
 - 15 amp high (6 & 12V)/ 2 amp low (12V) charge settings.
 - Automatically shuts off (when set to 12 volts) when battery is fully charged. Resumes charging if battery becomes discharged.
 - Battery Type Selector ensures full charge for deep cycle and normal batteries.
 - Charges 6 & 12 volt maintenance free and deep cycle batteries used in cars, trucks, farm equipment, RV and commercial applications.
 - Charges automotive batteries in 2 to 4 hours.
 - 2 amp setting is ideal for charging 12 volt motorcycle and lawn mower batteries.
 - Reverse connection warning light and charge complete indicator.
 - Large clamps deliver solid connections.
 - 1 year limited warranty.
- PART NO.: 141-290-902

WHEEL CHARGERS

87422

87423

87603

MODEL 87422

- 200 amp 12v engine start helps start stubborn motors.
- 40 amp high / 2 amp low 12v charge settings.
- 130 amp start / 40 amp high 6v charge settings.
- 2 hour timer
- Timer has hold position when continuous charging is required.
- Charges 6 & 12 volt maintenance free and conventional batteries used in cars, trucks, farm equipment, RV and commercial applications.
- Charges automotive batteries in 1 to 3 hours.
- Heavy duty clamps grip securely on all batteries.
- Extra long, 6' copper output cables.
- 5 year limited warranty on transformer and rectifier.
2 year warranty on unit. 1 year warranty on cables

PART NO.: 141-302-000

MODEL 87423

- 200 amp 12v engine start helps start stubborn motors.
- 40 amp high / 2 amp low 12v charge settings.
- 130 amp start / 40 amp high / 15 amp medium 6v charge settings.
- Test feature identifies battery and alternator problems, indicates battery state of charge.
- 2 hour timer.
- Timer has hold position when continuous charging is required.
- Charges 6 & 12 volt maintenance free and conventional batteries used in cars, trucks, farm equipment, RV and commercial applications.
- Charges automotive batteries in 1 to 3 hours.
- Heavy duty clamps grip securely on all batteries.
- Extra long, 6' copper output cables.
- 5 year limited warranty on transformer and rectifier.
2 year warranty on unit. 1 year warranty on cables

PART NO.: 141-305-000

MODEL 87603

- 225 amp 12v engine start helps start stubborn motors.
- 60 amp high, 40 amp medium 12v charge settings.
- 160 amp start / 60 amp high 6v charge settings.
- 30 amp high 24v charge settings.
- Charges 6, 12 and 24 volt maintenance free and conventional batteries used in cars, trucks, farm equipment, RV and commercial applications.
- Ammeter and Voltmeter help monitor charging progress and help identify problem battery conditions.
- 2 hour timer with shutoff.
- Timer has hold position when continuous charging is required.
- Extra long, 6' copper output cables.
- 5 year limited warranty on transformer and rectifier.
2 year warranty on unit. 1 year warranty on cables
