Guide Number: 6809510A87-O

BEFORE YOU BEGIN

Before using this product, read the Important Safety and Legal Information pamphlet and follow its instructions.

Take a moment before you get started to familiarize yourself with your new H680 Bluetooth Handsfree Headset. Along with your headset, a charger base is provided for both charging and storage.

Power Switch
Call Button
Indicator Light
Microphone

Charger Cover
Charging Contacts
Charger Port
① CHARGE
Your Headset's Battery

1 Plug the Motorola charger into the port on the charger base.

2 Place headset into charger base ensuring that charging contacts on the headset and charging base connect.

Charging Contacts
The indicator light turns red when the battery is charging. It may take up to 1 minute for the indicator light to turn on. When the headset's battery is fully charged (about 2 hours), the indicator light turns off.

3 Disconnect the charger.

Note: Headset is not functional while charging.

② START BLUETOOTH FEATURE
Your Phone

Your phone's Bluetooth feature is off by default. To use your headset, you must turn on the Bluetooth feature in your phone.

For most Motorola phones (at the main menu):

1 Press ▤ (**Menu**) > **Settings** > **Connection** > **Bluetooth Link** > **Setup**.

2 Scroll to **Power**.

3 Select **Change**.

4 Scroll to **On**.

5 Press **Select** to turn on the Bluetooth feature. The Bluetooth feature remains on until you turn the feature off.

*Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.*

③ PAIR
Your Headset

Before you can use your headset, you must pair (link) it with your phone.

Step A - ENSURE HEADSET IS IN PAIRING MODE
Remove headset from charging base and power on by sliding Power switch to the On position (towards Power symbol on headset). The indicator light flashes to initiate easy pairing. After a few moments, the indicator light will be steadily lit in blue to indicate headset is in pairing mode.

Indicator Light (steadily blue for pairing mode)
If the headset does not enter pairing mode, see **TROUBLESHOOTING** for help.

③ PAIR *CONTINUED*
Your Phone

Step B - SET YOUR PHONE TO LOOK FOR YOUR HEADSET

For most Motorola phones:

1 On your Motorola phone, press ▤ (**Menu**) > **Settings** > **Connection** > **Bluetooth Link** > **Handsfree** > **Look for Devices**.

The phone lists Bluetooth devices it finds.

2 Select **Motorola H680**.

3 Select **OK** or **Yes** to pair your headset with your phone.

4 Enter the passkey: **0000**

5 Select **OK**.

When your headset successfully pairs and connects with your phone, the indicator light changes from steadily lit to flashing blue.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.

④ TEST AND USE

Your phone and headset are now paired and ready to make and receive calls.

To make a call:

1 Place the headset over your ear. See "Wearing the Headset" on the reverse side of this guide.

2 On the phone, dial the number you want to call and press **SEND** key on your phone.

If your phone and headset are successfully paired, you will hear ringing on the headset.

After you have successfully paired your phone and headset, you don't need to repeat these steps. For daily use, ensure that your headset is turned ON and that your phone's Bluetooth feature is ON.

STORING YOUR HEADSET

The charger base provided is used to charge and store your headset. When not using your headset, you should place it in the charger base.

As shown, the charger cover can be placed on top of the charger base, or underneath it to provide support for desktop placement.

USING YOUR H680

See **Features and Functions Guide** on the reverse side for information on using your H680

TROUBLESHOOTING

My headset will not enter pairing mode.
Make sure that any devices previously paired with the headset are turned off. If the indicator light is not steadily lit in blue, turn off both the other device and headset, wait 10 seconds, then turn headset back on. Wait for the indicator light to become steadily lit in blue, indicating the headset is now in pairing mode.

My phone doesn't find my headset.
Make sure the indicator light on your headset is on (lit in blue) and steady when your phone is searching for devices (see step 3).

My headset worked before but now it's not working.
Make sure your phone is on and the Bluetooth feature is turned on in your phone (see step 2). If the Bluetooth feature was turned off or was turned on only temporarily, you may need to restart the Bluetooth feature (see step 2) and pair your phone and headset again (see step 3).
