Introduction:

① Dust Net ③ LED Indicator
② Multi-Function Button ④ Charging Port

a) putting the earbuds back into the charging case and then take it out to power on.
OR
b) manually turn it on by long pressing the multi-function ② button on the earbuds.

Charging your device

1. Charging your case:

- Plug in the charging case using the Micro USB cable included.
- While the case battery is charging, the case LED indicator will be flashing red.
- When the case is fully charged, the light then will change to solid red.

2. Charging your earbuds:

- Place the earbuds inside of the charged case. The earbuds will automatically start charging once placed in the charged case.
- A solid Red light on the earbuds will indicate that the earbuds are charging.
- The earbuds LED lights will be off once the earbuds are fully charged.

NOTE: The earbuds and case can be charged simultaneously, but the earbuds will not charge if there is no power in the case. The case needs to have at least a minimum charge to charge the earbuds.

Pairing your earbuds

1 Turn on the Bluetooth on your device
2 Choose "SOUNDPODS" on your list to connect

When the LED turns off, they are paired successfully. There will be a reminding voice saying "connected"

Bluetooth usage:

1. Making phone calls:
Be sure the earbuds are connected with your mobile phone. Once connected you can make phone calls. When making calls both earbuds will be working.

- To **answer a call**, short press the earbud Multi-function button one time.
- To **reject calls**, long press the the earbud Multi-function button two seconds.
- When the earbuds are in music mode, you can **dial the last number** by quick pressing the earbud Multi-function button twice.

2. Listening to music:
Be sure the earbuds are connected with your mobile phone. You can listen to music on your music list. Short press the earbud Multi-function button to stop the music; to replay press again.

Back

3. Power off:
Long press the earbud Multi-function button until the LED red light is no longer red, then the Bluetooth device is turned off. The earbuds turn off automatically when earbuds are away from Bluetooth device for a duration of over 5 minutes.

4. Low battery
When the battery is low, there will be a reminding voice saying "Battery Low"

FCC Statement:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
