### FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: This device may not cause harmful interference, and This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
Reorient or relocate the receiving antenna.  
Increase the separation between the equipment and receiver.  
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
Consult the dealer or an experienced radio/TV technician for help.

**FCC Radiation Exposure Statement:**  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

### Attention

Please read all the warnings and safety instructions carefully prior to using this product. Improper use of this product may result in damage to attached products. To keep the product working at its optimum performance, never use it in the following conditions:

### Warnings

- Some phone cases may block the wireless charging
- Do not place other materials, like metal objects, magnets, and magnetic stripe cards, between the mobile device and the wireless charger pad.
- Check your mobile device's battery percentage using the charging icon displayed on the screen of your phone.
- When the mobile device is not placed on the charging surface accurately, your mobile device may not charge properly.
- If you use the wireless charger in areas with weak network coverage, you may lose your network reception.
- Please do not expose this device to moisture or heat sources.
- This is not a toy, not suitable for children under the age of 7.

Customer Service: 1-855-350-6868  
Hours of Operation:  
Monday - Friday 10AM - 6PM, EST

### Specifications

Input: 100-240V - 50/60Hz  
Type C Output: DC 5V 3A Max  
Wireless Output: 5W  
Total Output: DCSV 3.4A Max

**Important: only use included accessories or certified and tested accessories to charge this device. Using third party accessories can influence the item safety.**

### Features

- First plug the included AC cable into the wall outlet.
- Make sure your phone is compatible for wireless charging.
