

Digital Photo Frame

User Manual

Safety Precautions

Be sure to read, understand and follow the safety precautions below when using the frame, in order to prevent injury, burns or electrical shock to yourself and others.

Warning

Avoid dropping or subjecting the frame to severe impacts.

Stop operating the equipment immediately if it emits smoke or noxious fumes.

Do not handle the power cord if your hands are wet.

Do not expose to moisture.

The LCD panel is made of glass and therefore is fragile and destructible to heavy blow.

The compact power adapter and usb extended cable are designed for exclusive use with your frame. Do not use others for this product.

NOTES

1. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment **generates**, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
