

CITROËN DISPATCH

ABOVE STANDARD ISSUE. WHEN OUR DESIGNERS SAT DOWN TO REDRAW THE CITROËN DISPATCH RANGE WE MADE SURE THEY TICKED EVERY BOX.

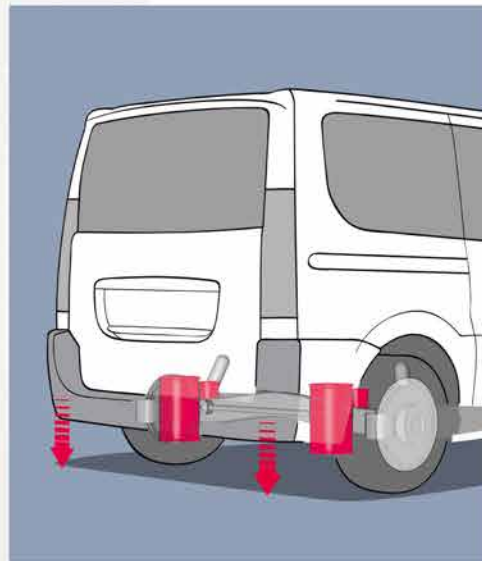

IT LOOKS GREAT TOO! DYNAMIC STYLING WITH ROBUST PROTECTION. AND INSIDE? ERGONOMICS, SUPERIOR COMFORT AND SOUNDPROOFING ENOUGH TO MAKE EVEN THE MOST CRITICAL CREW MEMBER HAPPY.

THE VERSATILE WORKER. CITROËN DISPATCH IS ENGINEERED TO ADAPT: TO DIFFICULT LOADS, DIFFERENT SPACES AND EVERY CHALLENGE YOU FACE.

EACH VERSION HAS VERSATILITY AND PRACTICAL INNOVATIONS BUILT IN, SAVING YOU TIME AND ENERGY. FROM RIDE AND ROAD HOLDING TO AN EASILY ADJUSTABLE LOADING HEIGHT AND EFFORTLESS ACCESSIBILITY, CITROËN DISPATCH IS ALWAYS ON SIDE.

› ENTERPRISING SOLUTIONS

In addition to the huge variety of equipment available on the Citroën Dispatch, Enterprise models include a full steel bulkhead (optional on Panel Van models) and rear parking sensors (optional on Panel Van, Crew Van and Combi models). Air conditioning with electrically adjustable and heated twin lens door mirrors are also standard on Enterprise and Combi SX and optional on all other models.

› ENJOYABLE CONSISTENT RIDE

The adjustable pneumatic rear suspension, optional on Panel Vans and Enterprise (excluding HDi 90), Crew Van and Combi models, guarantees optimal road holding and a constant ride height under all load conditions. This system also maintains a constant overall height of less than 1.90m, i.e. below the standard minimum limit for entrances to underground car parks. Lastly, the manual control for adjustment of the load sill offers incomparable convenience by allowing a reduction of the rear sill height to 49cm; the ride height returns to normal automatically as soon as the speed reaches 6mph.

› COMPLETELY ACCOMMODATING

Designed to carry what your work demands, an optional accessory 3m Pipe Carrier allows you to transport standard pipe lengths safely and securely inside the van. In L2 models, you can accommodate 8' X 4' plasterboard either vertically or flat across the load floor between wheel arches.

> SAFE...

Keeping you safe on every mission, Citroën Dispatch features Grip Control, optional on HDi 95 and HDi 125 Panel Van, Enterprise, Crew Van and Platform Cab models. Grip Control has four selectable driving modes – normal, all roads, snow or sand. They enable the Citroën Dispatch to cover a variety of challenging surfaces and rough terrain, so work carries on whatever the weather. All models are equipped as standard with ABS, Emergency Braking Assistance, driver's airbag, pretensioner front seat belts and Electronic Stability Control. All models, excluding Combi, are fitted with cruise control with adjustable speed limiter. These features make Citroën Dispatch a reassuringly protective place to be.

> ...AND SECURE

On Panel Van, Enterprise and Crew Van models, Trafficmaster Smartnav guides you to your destination without hassle, thanks to real-time traffic and road incident data that provides you with the best possible route and constant updates, via a colour touchscreen. GPS Stolen Vehicle Tracking enables a stolen vehicle to be tracked and located 24/7, every day of the year, so you can leave your vehicle, safe in the knowledge that it can look after itself.

> OPTIMAL COMFORT

The ergonomic design of the driver's seat guarantees excellent body posture, and offers a car-like driving position giving excellent visibility while maintaining maximum comfort even during long periods of driving. To find the most comfortable driving position, the seat back is adjustable, while the seat cushion can be adjusted for length and height.

GREEN EFFICIENCY. CITROËN HAS BEEN PIONEERING CLEANER, MORE FUEL-EFFICIENT MOTORING, SUCH AS THE COMMON RAIL HDi ENGINES NOW FITTED IN ALL NEW CITROËN DIESELS, LONG BEFORE ALL THE HYPE...

CITROËN HAS ALWAYS BEEN AT THE FOREFRONT OF GREENER TECHNOLOGY AND THE CITROËN DISPATCH MAINTAINS THAT TRADITION. IT'S WHY WE ARE FOUR TIME WINNERS OF THE GREEN FLEET LCV MANUFACTURER OF THE YEAR, INCLUDING THEIR MOST RECENT, 2013 AWARD. TODAY, WE HAVE ONE OF THE UK'S WIDEST RANGES OF LOW EMISSION VEHICLES. WE ALSO PRODUCE ONE OF THE UK'S MOST ECONOMICAL LIGHT COMMERCIAL VEHICLES, THE CITROËN NEMO VAN.

We've been equipping more of our vehicles with more environmentally friendly breakthroughs, such as Stop & Start. Stop & Start puts the engine into idle mode as you decelerate and stops altogether as you come to a halt. The moment you take your foot off the brake, it restarts silently and without vibration. The results are a dramatic reduction in both fuel consumption and CO₂ emissions, combined with responsive performance wherever you go.
