

**Exhibit 8: User's Manual**

The user's manual was sent as a separate pdf file. The compliance statement shown below is enclosed on pages 19-20 of the manual.

FCC

The Gentner Venture-Base Assistive Listening Transmitter complies with Part 95 of the FCC Rules.

This device may not interfere with TV reception or federal government radar, and must accept any interference received, including interference that may cause undesired operation.

This transmitter is authorized by rule under the Low Power Radio Service (47 C.F.R. Part 95) and must not cause harmful interference to TV reception or United States Navy SPASUR installations. You do not need an FCC license to operate this transmitter. This transmitter may only be used to provide: auditory assistance to persons with disabilities, persons who require language translation, or persons in educational settings; health care services to the ill; law enforcement tracking services under agreement with a law enforcement agency; or automated maritime telecommunications system (AMTS) network control communications. Two-way voice communications and all other types of uses not mentioned above are expressly prohibited.

Industry Canada

This device complies with the requirements of the Department of Communications (DOC of Canada), as specified in document RSS-210. Operation is subject to the following two conditions: 1) This device may not cause harmful interference; 2) this device must accept any interference received, including interference that may cause any undesired operation.

If TV channel 13 is used in the area, the installer of this system shall reduce or adjust the RF radiated power so that nearby TV channel 13 receivers do not receive radio interference from the system. (A test with a TV receiver equipped with "rabbit-ear antenna" and tuned to TV channel 13 should be conducted, at the perimeter of the user's intended coverage area.)
