Sales - Hire - Service

## GEL BATTERY CARE & MAINTENANCE PROCEDURES

### DO

- ⇒ Ensure the top of the battery is clean and dry
- ⇒ Switch off charger before disconnecting battery
- ⇒ Ensure all connections and bolted terminals are tight and covered with petroleum jelly. Use insulated tools when removing or replacing terminals.
- ⇒ Wear protective clothing.

### DO NOT

- ⇒ Overcharge or undercharge the battery. Use only the correct type and size of charger approved by Clemas & Co Ltd.
- ⇒ Put any metal objects on top of the battery
- ⇒ Leave discharged battery in that state for over 24 hours
- ⇒ Smoke or allow naked flames near the battery, especially when charging
- ⇒ Re-charge the battery for longer periods than necessary to restore capacity used
- ⇒ Repair or re-set the charger. Any setting or necessary repair should be undertaken by qualified personnel, using approved components. Contact our Service Department for further information.
