## **CHARGE THE BATTERY**

Before using the Focush for the first time or when the battery is low, you must charge the battery.

Fully charge the battery up to about 4 hours for first time use.

If the battery is completely discharged, you cannot turn on the device, even while it is charging.

Allow the battery to charge for a few minutes before you try to turn on the device.

When the battery is low, the device will show a low battery message.

Recharge the battery to continue using your Focush.

When you are not using your device, switch to sleep mode by pressing the Power key. This can help you to save battery power and can use the device longer between charges.

## **GETTING STARTED**

Hold ON/OFF key to power on, If it is used for the first time, the device will ask whether to bind the

## APP?

If you have installed the Focush APP on your phone/tablet, you can choose 'BIND APP', then scan the QR code to Bind.

If you don't have the app installed, you can choose 'Bind Later', Then the device will ask you to set the date and time.

Can Focush be used alone? Or do I have to use it with the

## Focush APP?

Focush can be used alone. If you not install the Focush APP, you can use Focush alone to create tasks, manage tasks, and use most of the functions.

But if you want to view your task report, or invite friends join a task, then we recommend you install the Focush APP.

## CREATE A TASK

## Timer Type

'No timer' is suitable for tasks of indeterminate duration, such as: drawing an illustration, writing a report...

'Pomodoro' is suitable for tasks of fixed duration, such as: 50 minutes of yoga practice, 25 minutes of online courses...

You can tap 'More settings' to add Repeat or Alarm.

## START A TASK

Created tasks will be automatically added to the task list;

Click and hold the task name see more details.

Click the play icon to start the task.

For 'No Timer' tasks, the screen displays the duration of the task.

For Pomodoro tasks, the screen displays the countdown.

After 25 minutes of the task, there will be a 5-minute break so that you can complete the task more efficiently.

## CALENDAR

With Calendar, you can jump to future dates, add tasks for future dates, or perform tasks for future dates.

You can also jump to past dates to see tasks performed on past dates.

Click the date, will jump to the task list of the date you selected.

If you complete a task for a future date, the task is automatically moved to today's record.

That is to say, Focush will record according to the actual execution date of the task.

## OVERDUE TASK

We understand that overdue task are inevitable, and that doesn't mean you're not diligent enough.

When an overdue task occurs, the task will be removed from the scheduled date to the Overdue Tasks folder.

Same as complete a task for a future date, If you complete a overdue task, the task is automatically moved to today's record.

## REWARD SYSTEM

With the reward system turned on, every time you complete a task, you can get a marine life as a reward.

More missions you complete and the longer the missions last, more rewards you can get.

You can turn on the Reward system in Settings.

## SETTINGS

## Focush APP

For the Focus APP, you can create tasks, invite friends to join tasks, manage friends, view rewards, and view task reports.

When using the APP for the first time, you need to fill in the name and set a password, the system will assign you an ID, please remember your ID and password;

You can check your ID on Profile page.

If you change your phone/tablet, you can log in to

the new device with your ID and password, so that the new device does not need to be re-bound with Focus, and your task records will also be synchronized to the new device.

## Dump tasks

We know that sometimes we think we need to do something, but for those things, there may be no clear plan for the time being.

Using the APP, we can quickly add these things to dump tasks, and then 'transfer to Task List' when there is a clear plan in the future.

## Friend List

Enter your friend's ID, you can add friends, view your friends' rewards, and send task invitations.

If you don't want to be disturbed, you can also set 'Allow Friend Request' OFF in the Profile.

Federal Communications Commission (FCC) Statement. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received,

including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide Reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by **Comet Innovation Limited** may void the FCC authorization to operate this device. Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

**RF exposure statement:**

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device is installed and operated without restriction.
