CHARGING

Your Carbon Smart headset performs the best when fully charged. When you hear a low-tone beep at regular intervals (the indicator light flashes in red), your headset needs to be recharged. It takes around 50 minutes to charge up.

The fully charged battery has power for up to 4.5 hours of talk time or 4 hours of music streaming or up to 6 days of standby time. Charging the battery for 15 minutes provides up to 2.5 hours of talk time or up to 2.5 days of standby time. When fully charged, the indicator light will change from red to blue.

Pay attention to the plug direction

Use a standard microUSB to USB cable or a 5V power adaptor (200mA or more)

Note: The lifetime of the battery will be significantly reduced if your device is left uncharged for a long period. We recommend that you fully recharge your device at least once a month.

BATTERY STATUS ON iPhone™

This headset supports "iPhone headset battery meter" which monitors headset battery level on-screen when connected.

SWITCHING ON/OFF

1 Power button

To conserve energy, your Carbon Smart headset will be switched off when it loses connection with your mobile phone for more than 20 minutes. Switching the button to "off" then to "on" position will wake up the headset instantly.

LANGUAGE SELECTION

Voice prompts of the headset are available in English, Spanish, Putonghua (Mandarin), French or in "beep" tone to remind you the status of the headset.

To select your preferred language, switch on the headset, follow the voice guide instruction and press the TALK button. After completing the language selection process, the headset will enter pairing mode automatically. Please refer to "Pairing" section to pair your headset.

ADJUSTING VOLUME

2 VOL Button

Tap the volume button to increase the volume of the speaker. After reaching the max volume, continue tapping the button again will decrease the volume to the lowest level.

PAIRING

- 1 Place the Carbon Smart and your mobile phone within 0.3 meter (1 foot) from each other.
- 2 Switch on your phone and switch to Bluetooth® discover mode (refer to your phone's manual).
- 3 Switch on Carbon Smart, press and hold the TALK Button for approx. 8 seconds until blue and red light flash alternately.
- 4 "BLUETREK CARBON SMART" will be displayed on your mobile phone.
- 5 Follow the phone instructions to accept the pairing. The PIN code (or passkey) is 0000, then press "yes" or "ok".

*If your phone supports Secure Simple Pairing (SSP), PIN code is not required.

- 6 For some phones, you may need to select "Connect".

* If pairing is successful, the indicator light will switch to blue and flashes intermittently.

FITTING ERGOBUD® ADVANCE

Choose a earbud that best fits the size of your ear. The earbud can be rotated front and back on the speaker to optimize your wearing comfort.

EAR HOOK

The ear hook may help further secure the headset on your ear.

REMOVABLE PEN CLIP

To carry the Carbon Smart headset when not in use, clip it to your pocket or anywhere on your shirt.

MAKING CALLS

Using the mobile phone key pad

- Make sure the headset is connected with your phone and in stand-by mode.
- Dial the number on the phone keypad, after approximately 2 seconds the audio connection will be established.

Using the voice recognition function of your mobile phone*

- Make sure the voice recognition function on your mobile is activated and your voice tags have been recorded on the phone. Please refer to your phone manual.
- When there is no incoming or active call, press on the TALK button for 2 seconds.
- Wait for the audio signal from the mobile phone (generally a short tone).
- Say the name of the person you wish to call.

*This function may not be available on some phones, please check with your phone manufacturer for further details.

ANSWERING CALL

If the headset is powered on: Press once the Talk Button.

If the headset is powered off: Switch on the headset, the call will be put through automatically.

ENDING CALL

Press Once the TALK Button.

LISTENING TO MUSIC

Carbon Smart is capable of streaming music over Bluetooth® either from a mobile phone or any other Bluetooth® device supporting A2DP. Once you have paired your Carbon Smart with your mobile phone or with a Bluetooth® music player, use your phone or music player to play, pause, stop, skip, forward and backward.

When you receive a call, the music will automatically be suspended and you will be able to answer or reject a call through the headset. Once you end a call, the music should recommence. On some phones and music devices you may have to press 'play' to start the music again.

MULTI-POINT FUNCTION

Connecting with two Bluetooth enabled devices simultaneously.

Enable the multi-point function

1. Pair the headset to the 1st device (Please refer to "pairing" section).
2. Press and hold the TALK button for about 8 seconds to enter into pairing mode, then pair it to the 2nd device (Please refer to "pairing" section).
3. Press once the TALK button again. The 2 devices will be connected simultaneously.

Answer a call while talking on the other paired phone

- To answer the second call and put the current call on hold, double press the TALK button.
- To answer the second call and terminate current call, press once on the TALK button.
- To reject the second call, reject from mobile phone directly.

MUTING THE MICROPHONE

To mute the microphone during an active call

During an active call, press and hold the VOL button for approximately 2 seconds. A periodic tone can be heard in the speaker.

To end the mute function

When the microphone is muted, press and hold the VOL button for approximately 2 seconds until the periodic tone is end.

VOICE ALERT

A recorded voice reminds you of the status of your headset, such as: low battery, pairing, last outgoing number redial, mute, un-mute etc...

You can select the languages from first switch on the headset. 4 languages are available for this headset: English, Spanish, Putonghua (Mandarin) and French. You may also select the "beep" tone alert.

To change the voice alert language, please reset your headset.

RE-CONNECTION

Carbon Smart will reconnect to your mobile phone automatically if Bluetooth connection is interrupted for less than 3 minutes.

If connection is interrupted for 3 to 20 minutes, press the TALK button to reconnect.

If connection is lost for more than 20 minutes, Carbon Smart will switch off automatically, please switch the power button to "off" then to "on" again to wake up the headset and reconnect with your phone.

RESET TO FACTORY SETTING

If the headset fails to operate normally, you may need to reboot or reset your headset.

To reboot your headset, just charge your headset for 5 sec, the headset will be rebooted automatically.

If reboot cannot solve the problem, try to reset your headset. Switch on your headset, press TALK button together with VOL button for 5 sec until the red LED flashes.

Wait for around 7 sec, the headset will be reset and enter into pairing mode directly.

*Reset the headset will delete all pairing information, you will need to pair your devices again

MORE INFORMATION & SUPPORT

Some features of your Carbon Smart headset may not work on your mobile phone if it does not support the handsfree or headset Bluetooth profiles. Please check with your phone manufacturer for further details, or go on our website **www.bluetrek.com** to check product compatibility and Frequently Asked Questions.

Please contact us at **support@bluetrek.com** before returning the product to your dealer and we will help you through any difficulty you may have.

Thank you for choosing a BLUETREK® product
