A REVOLUTION IN GPS TRACKING

## The Game Changing GPS Device, No Installation Required

To give automotive lenders a competitive edge, we provide two key advantages. The first uses a smart dashboard infused with artificial intelligence to categorize risks, allowing dealers to identify and protect themselves using predictive analytics. Next is our revolutionary S4N-4LH, the industry's next-gen GPS tracking device that doesn't require a hardware installation nor a monthly service plan.

S4N-4LH delivers 3000 events providing you with 36 months of coverage. It also allows you to shift modes if a vehicle's loan status changes:

**Discovery Mode:** provides a detailed history for the first 250 events for STIP verification

**Stand-by-Mode:** reports vehicle location and health 2X a day

**Recovery Mode:** reports vehicle's movement and stop events.

Revo helps auto lenders eliminate the costs and headaches associated with labor and improper hardware installations.

## HIGHLIGHTS

- Reduces GPS device failures, no installation required
- No wires to cut, no vehicle warranty concerns
- Eliminates the costs and time associated with installing, training and auditing
- Takes 1a-seconds to activate with included key
- Battery life delivers 3,000 events guaranteed
- Recovery mode collects new data every 5 minutes

## TARGET MARKET

Operating voltage is provided by a Lithium Ion battery pack, allowing for a wide range of uses including Cars, Trucks, Trailers and Heavy Equipment.

## A REVOLUTION IN GPS TRACKING

### ACTIVATION

#### NO INSTALLATION NEEDED!

To activate the S4N-4LH GPS unit, simply:

- Insert the activation key and hold for 10 seconds.
- Remove the activation key and look for the LED lights to turn on and remain steady.
- Place device in a discrete location in the vehicle, e.g. under the glove box, inside a trunk panel, etc.

**Note:** After the activation process is done, it takes around 10 seconds for the LED lights to shut off.

### SPECIFICATIONS

#### CELLULAR

4G LTE Technology

Integrated Hyper Sensitive GPS and Cellular Antenna

#### GPS FUNCTIONALITY

Processor: 56 Channel

Location Accuracy: Up to 2.5 feet

#### POWER SOURCE

Operating Voltage: Lithium Ion Battery Pack

Delivers 3000 events (Minimum of 3 Years)

#### ENVIRONMENTAL

Operating Temperature: -22 degrees F to +167 degrees F

Dust Resistant

Designed to withstand harsh environments

#### PHYSICAL SPECIFICATIONS

Dimensions: 4 5/16" W x 3 3/16" D x 3/4" H

#### CERTIFICATIONS

Fully Certified and Industry Compliant: FCC, PTCRB, RoHS2

## Federal Communications Commission (FCC) Statements

This device complies with Part 15 of the FCC Rules. Operations is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

## Industry Canada (IC) Statements

This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

1. This device may not cause interference; and
2. This device must accept any interference that may cause undesired operation of the device.

Cet appareil est conforme aux CNR exempts de licence d'Industrie Canada. Son fonctionnement est soumis aux deux conditions suivantes.

1. Ce dispositif ne peut causer des interférences; et
2. Ce dispositif doit accepter toute interférences, y compris les interférences qui peuvent causer un mauvais fonctionnement de l'appareil.
