- ◆ Delete all: Delete all call records
- ◆ Mark: Mark to operation

[Delete all]: Delete all call records

[Call times]: Last time zero starting time for last call statistics, a total of dialed calls, received calls, all calls total, all the time can also be zero.

[GPRS counter]: Display the SIM card GPRS data.

Message

The Messaging function is a network service. Sending and receiving Text/MMS can only be used if the service is proposed by your network operator.

You can send ordinary Text messages, enhanced Text messages (Text messages containing pictures, ring tones and animation as attachments, EMS for short). The SMS is sent to the Text messages center in the network firstly, and then to the target user. If the receiver's mobile is power off or cannot receive messages, the network will store the message temporarily and the store duration is determined by the user configuration and the service provider. I

The message will be directly stored in the SIM card if

the capacity is not full. A blinking icon at the head row of the main screen will be displayed if the capacity is full.

Messages unread

If the Text message has been sent to the receiver, a beep will sound. (If the tone for Text messages and message report are activated).

[Write message]

[New SMS]

- ◆ Send: Enter the appropriate number of the recipient or from the phonebook add
- ◆ Insert template: to the content of the message currently being edited into the common language
- ◆ Add contact info: Insert the contact person
- ◆ Add phiz: emoticons into the meaning of the representative
- ◆ Save as draft: will save the information to Drafts
- ◆ Exit: Exit message

[New MMS]

- ◆ Send: send MMS to the receiver

-
- ◆ Add new recipients: Enter the recipient's phone number or e-mail or group
 - ◆ Preview: Preview edited MMS content.
 - ◆ Add: add video/audio/picture to MMS
 - ◆ Set slide time(1s—600s): set the slide time of MMS
 - ◆ Delete: Delete the message
 - ◆ Save as draft: save as draft
 - ◆ Text layout: move the text above or down

[Inbox]:

- ◆ Reply: reply to SMS to each other.
- ◆ Delete: Delete short message
- ◆ Call: choose a voice call or a call to the sender IP calls
- ◆ Lock: lock cannot be deleted
- ◆ Move: Move the message to SIM or phone
- ◆ Copy: Copy the message to SIM or phone
- ◆ Mark: single marker or markers in whole or in text messages stored in SIM1/SIM2, mark or unmark after delete records

-
- ◆ Sort: In accordance with time / contact / theme / message type sort
 - ◆ Delete repeated number: choose to delete the same number of records.
 - ◆ Add to blacklist: Add the sender to blacklist

[Outbox]: Reading or processing stored in the Outbox of the SIM card message.

[Drafts]: Reading or processing stored in the Drafts of the SIM card message

[Sentbox]: read and process the mail stored in the SIM card has been sent information

[Security inbox] View the message which is locked

[Templates]: Use the function of templates

[Broadcast message]: Use the function of broadcast message

[Voice mail server]: use the function of voice mail server

Multimedia

[Camera]

The phone supports photo, so you can capture your favorite scenes anywhere. Photos will be saved in the phone comes with a file system, photographs as JPG format, you can phone provides photographs sent to a computer via USB connection to view, can also be set Image for the standby

Note: This function can work without driver under Windows XP by directly connecting your mobile to the computer

[DV]

Set the parameter of DV and then use the function

[Image]

View the image which in phone memory or T-card

[Audio]

Play audio files, MP3 songs; to play audio files, MP3 songs, press the Up and Down keys to adjust the volume, press the left and right keys to select the present, the next song, press the OK button for the on / off Music

[Music list]: Into playlist interface. Can be added to the play list editing and other operations

[Add]: Add songs or music playlist bookmark

[Set as ringtone]: The song is set to call or alarm tone

[Repeat]: Choose one/all repeat

[Shuffle]: Choose shuffle to play the music

[Settings]:

◆ Equalizer: Choose a variety of equalizer effects

◆ BT stereo output: Set the BT output

◆ BT stereo headset: Set the BT headset

[Open review]: Open the function of review

[Exit]: Exit menu audio player

[Video]

Use the function of video player

[FM radio]

[Auto search and save]: Channel auto search and save

[Channel list]: View channel list

[Save]: Save the channel to the channel list

[Manual search]: Manually enter the channel and find

[Open speaker] Choose whether to open the microphone

[background play] Choose whether to open the

Background Play

[Record]: Record the FM

[Timing record]: Set the time to record

[Record file list] The list of FM record file

[Storage] Set the location of storage

[Help]: FM Help

[Recorder]

[Start recording]: Start recording

[Record file list]: The memory card inside the recording file list

[Storage]: Set the locate of storage

[File format]: Set the format of record file

Others

[Calculator]

Can be continuously mixed arithmetic, the operation is simple, practical, convenient

[World clock]

View the time of countries

Settings

【Call setting】

[Dual-SIM]

[Standby mode]: Dual SIM standby or standby only SIM1 or SIM2 only

[Reply by original SIM]: Reply the call/SMS by original SIM

[Set SIM name] SIM1 and SIM2 in the card slot to set the display name

FCC RF EXPOSURE INFORMATION:

WARNING!! Read this information before using your phone

In August 1986 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards. Use only the supplied or an approved antenna. Unauthorized antennas, modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

BODY-WORN OPERATION:

This device was tested for typical body-worn operations with the back of the phone kept 10mm from the body. To comply with FCC RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the back of the phone, including the antenna. Third-party belt-clips, holsters and similar accessories containing metallic components shall not be used. Body-worn accessories that cannot maintain 10mm separation distance between the user's body and the back of the phone, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided. For more information about RF exposure, please visit the FCC website at www.fcc.gov

Your wireless handheld portable telephone is a low power radio transmitter and receiver. When it is ON, it receives and also sends out radio frequency (RF) signals. In August, 1996, the Federal Communications Commission (FCC) adopted RF exposure guidelines with safety levels for hand-held wireless phones. Those guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies:

<ANSI C95.1> (1992) / <NCRP Report 86> (1986) / <ICIMIRP> (1996)

Those standards were based on comprehensive and periodic evaluations of the relevant scientific literature. For example, over 120 scientists, engineers, and physicians from universities, government health agencies, and industry reviewed the available body of research to develop the ANSI Standard (C95.1). Nevertheless, we recommend that you use a hands-free kit with your phone (such as an earpiece or headset) to avoid potential exposure to RF energy. The design of your phone complies with the FCC guidelines (and those standards).

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the phone and may violate FCC regulations.

NORMAL POSITION:

Hold the phone as you would any other telephone with the antenna pointed up and over your shoulder.

RF Exposure Information:

This product is in compliance with FCC RF Exposure requirements and refer to FCC website search for FCC ID: 2ABGBQ18 to gain further information include SAR Values.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Do not use the device with the environment which below minimum -10°C or over maximum 50°C, the device may not work.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
