About This Guide

Thank you for purchasing an ContextMedia Health product. We recommend reading this user guide in its entirety in order to maximize the performance and service life of this product. This product is intended for commercial use and should be installed by authorized personnel only.

Introducing the Media player

The Media player area Mediaplay box designed to be used in commercial environments, and includes the following features:

- Quad core processor
- HDMI output
- Android 5.1 operating system
- 802.11a/b/g/n/acWiFi
- Bluetooth
- VESA wall mounting option
- 100M RJ45 Ethernetport
- USB ports
- RS232 port
- Headphonejack

If required, please ask for detailed specifications.

Safety and Warning Information

NOTE

- Ⓒ Ⓔ This mark is applied to indicate that the equipment conforms to European safety and electro-magnetic compatibility standards.

WARNING!

- ⚠ Main Supply: This equipment is designed to operate from a 100-240 Volt, 50/60Hz AC power supply. The use of other power sources may damage this equipment. Check that the voltage marked on the rating plate located at the rear of the power adaptor states 100-240V. The manufacturer will NOT accept responsibility or damage or injury caused by connecting to the wrong voltage.

WARNING!

- ⚠ Main Adaptor: The supplied power adaptor is compatible with a standard main socket. If the power adaptor or lead gets damaged, it must be replaced by a qualified service agent with an approved adaptor of the same type and rating.

WARNING!

- ⚠ Dangerous voltage constituting a risk of electric shock is present inside this equipment.

WARNINGS!

- ⚠ The main plug shall be the main disconnect device and shall remain operable at all times.

Do not push objects into holes and ventilation slots.

Do not expose this product to moisture or place any objects filled with liquids on or near the product.

Do not place a naked flame source, such as lighted candles, on or near this product.

Do not store or operate the device in environments where the temperature is above 50 degrees celsius or below -10 degrees celsius.

Do not intentionally hit the device or place heavy or sharp objects on the device.

Only use accessories specified by the manufacturer.

Keep the device away from benzene, diluents, and other chemicals.

Do not attempt to repair this product yourself. Always use a qualified service agent to perform adjustments or repairs.

FCC Statement

FCC ID: 2A16X-PPLAYIT

IC: 21722-PPLAYIT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna

Increase the separation between the equipment and receiver

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

Consult the dealer or an experienced radio/TV technician for help

To assure continued compliance, any changes or modifications not expressly approved by the party

Responsible for compliance could void the user's authority to operate this equipment (i.e. use only shielded interface cables when connecting to computer or peripheral devices)

This device is designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA) and Canada.

This Transmitter must be installed to provide a separation distance of at least 20 cm from all persons.

Only approved detachable antennas can be used

This device complies with Industry Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems. High-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices."

Le dispositif pour l'opération dans la bande 5150-5250 MHz est uniquement pour usage à l'intérieur réduire le risque de brouillage préjudiciable au canal commun de systèmes mobiles par satellite. Haute puissance radars sont désignés comme utilisateurs principaux (c'est-à-dire les utilisateurs de priorité) des bandes 5250-5350 MHz et 5650-5850 MHz et que ces radars pourraient causer des interférences et/ou endommager les dispositifs LAN-EL.

The devices with detachable antenna(s), the maximum antenna gain permitted for devices in the band 5725-5850 MHz shall be such that the equipment still complies with the e.i.r.p. limits specified for point-to-point and non-point-to-point operation as appropriate; The worst-case tilt angle(s) necessary to remain compliant with the e.i.r.p. elevation mask requirement set forth in RSS-247 Section 6.2.2(3) shall be clearly indicated, that is: (not applicable).
