

One key is used for the ignition and all of the locks.

Key code information can be obtained only at the retailer where your vehicle was purchased. These code numbers can be used to make new keys. Additional keys that are needed can be made at any retail service facility provided you have the key code information. Store this information in a safe place, but not in your vehicle.

Have extra keys made. Your service parts department can make extra keys for you.

If your vehicle is equipped with the OnStar® System with an active subscription and you lock your keys inside the vehicle, OnStar® may be able to unlock your vehicle. See *OnStar® System on page 2-35* for more information.

Notice: If you ever lock your keys in your vehicle, you may have to damage the vehicle to get in. Be sure you have spare keys.

Remote Keyless Entry System

The remote keyless entry system operates on a radio frequency subject to Federal Communications Commission (FCC) Rules and with Industry Canada.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference received, including interference that may cause undesired operation of the device.

This device complies with RSS-210 of Industry Canada. Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference received, including interference that may cause undesired operation of the device.

Changes or modifications to this system by other than an authorized service facility could void authorization to use this equipment.
