1 Installation

- Install the wireless adapter in your desired location.
(See enclosed instructions sheet.)

Note: Each wireless adapter enables you to turn on, turn off, and dim a lighting device up to 15 watts.

2 Download the HALO Home app to your smart mobile device.

3 Create a user account and validate via email

- Enter your email address as your user account name.
- Select a password of at least 8 characters from the mobile application "register" screen.

4 Adding the wireless adapter

- Select "+" on the HALO Home App screen to add the wall plug.*

** At least one HALO Home wireless adapter (or compatible device) will need to be installed and powered in order to add it to the HALO Home App device list.*

5 Adding the wireless adapter (continued)

5a) The app will search for your installed wireless adapter.

5b) Select the device and click **“Done”** to complete the pairing process.

Once the adapter has been successfully claimed, the light that it is connected to it will blink.

** During setup, ensure your HALO Home device is powered and within about 30 feet of your smart mobile device.*

Setting up a schedule

To set up a new schedule, follow these steps:

- Once you have claimed a device, select the “⋮” icon to the right of your device’s name.
- Select the calendar icon on the slider and then select the “+” button.
- Using the dial, set your desired time.
- Select the days of the week that you want the schedule applied to.
- Select “Save” and give your schedule a unique name.

Creating a group

- At the top left, press the “⋮” menu icon and select Groups to access the new grouping page.
- Select the “+” in the center of the screen, or in the top right corner, to make your first group. Then enter a unique name for your group and select “Done.”
- Touch and drag devices from the bottom of the screen towards the top of the screen to add them to your Group. Repeat to add more and select next.
- After your group is saved, you will be brought to the “Group Settings” menu.

Reset to Factory Setting

- Using the wall switch, cycle the power 4 times
 - OFF for 1/2 second and ON for 5 seconds
- The light will flash twice after a successful reset.
- This procedure will unclaim the adapter.

Dimming

- Dimming in the app will match the performance of the light that the wireless adapter is installed within.

FCC

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
