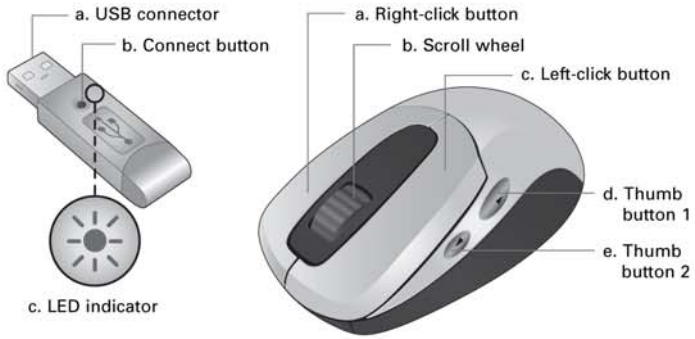
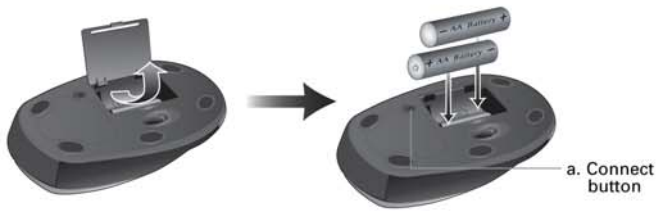
# CREATIVE FreePoint 5500 Quick Start

## Overview



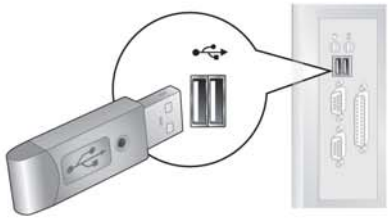
## 1. Inserting Batteries



If your mouse's batteries are running low, the red light-emitting diode (LED) in the RF receiver lights up.

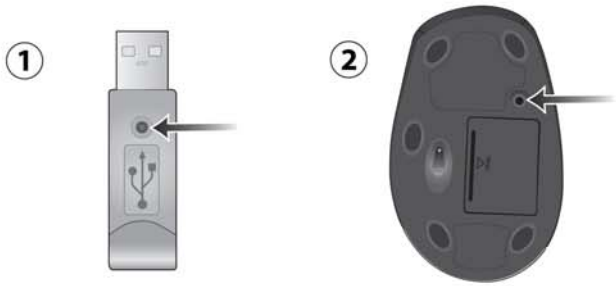
## 2. Connecting Your Creative RF Receiver

a. Connect the RF receiver to the USB port on your computer. The green LED on the RF receiver blinks.



- Microsoft® Windows® 98 and 98 SE users may need to install device drivers. For more information, see "Step 4: Installing Device Drivers and Software".
- To exit power saving mode, click a mouse button.

## 3. Activating Your Creative FreePoint 5500



Your mouse is a plug-and-play device and can be used when the RF receiver is connected to your computer.

Test the mouse. If it does not respond, do the following:

1. Press the **Connect** button on the RF receiver, as shown above.
2. Press the **Connect** button on the mouse, as shown above.

If the mouse pointer is responding erratically, reposition your mouse and try again. Make sure that there are no obstructions, such as electronic devices, between your RF receiver and mouse.

## 4. Installing Device Drivers and Software

You need to install the software in the Installation CD to configure the buttons on your Creative FreePoint™ 5500. The following instructions are applicable to Windows XP, Windows 2000, Windows Millennium Edition (Me), Windows 98 Second Edition (SE) and Windows 98.

1. After you have connected Creative FreePoint 5500, Windows will detect your mouse and install the required drivers automatically.

   Windows 98 and 98 SE users may be prompted by an **Add New Hardware Wizard** dialog box when Windows detects your USB device. Follow the instructions on the screen. You may need to insert the Windows Installation CD into the CD-ROM drive during installation. Some computers may be supplied without the Windows CD, but have the necessary files stored in **c:\windows\options\cabs** (replace **c:** with the drive letter your Windows has been installed on).

2. Insert the Creative FreePoint 5500 Installation CD into the CD-ROM drive. Your CD should start automatically. If it does not, follow the steps below:
   i. Double-click the **My Computer** icon.
   Alternatively, click **Start** → **My Computer**.
   ii. Right-click the CD-ROM/DVD-ROM drive icon, and then click **Autoplay**.
3. Select the applications to install, and then click the **OK** button.
4. Follow the instructions on the screen to install your Creative FreePoint 5500.
5. When prompted, restart your computer to complete the installation.
