

Quick Installation Guide

DSP-W320
Outdoor Wi-Fi Smart Plug

Wall Anchor x1

Screw x1

Quick Installation Card

Quick Installation Guide

1 Plug It In

Plug the smart plug into a power outlet. Wait until the LED on the front changes from red to flashing amber.

2 Download The App

Download the **mydlink** app by searching for "mydlink" on the App Store or Google Play™.

Note: This product is NOT COMPATIBLE with the other mydlink apps. Please install the app titled only "mydlink."

If you are a mydlink Lite user, sign in to the new app with the same username and password and your existing cameras will appear in the new app.

3 Log In

New Users:
Tap **Sign Up** to register for a mydlink account.

OR

Existing Users:
Sign in using your mydlink account.

4 Add The Device

Tap **Add a Device** from the navigation menu on the left-hand side. Scan the Setup Code on the Quick Installation Card and follow the on-screen instructions to complete the setup.

Mounting

1 / Place at the desired location at least 2 feet from the ground. Use a pencil to mark the hole behind the mounting tab.

2 / Use a 15/64" drill bit to drill a 1-inch deep hole over the pencil mark. Insert the plastic anchor to support the screw.

3 / Twist the screw into the anchor. Leave 1/4" of the screw exposed from the wall.

4 / Align the screw with the hole on the mount. Slide the mount down to lock into place, allowing it to hang. Do not over tighten the screw.

Device Information

System Status LED

Power Status LED

- Booting up / Resetting
- Connected to Wi-Fi
- ☀ Ready for setup / Disconnected
- Switched on
- Switched off
- Firmware being upgraded

Precautions

Electric shock can cause serious injury or death. Install only in a dry environment.

Do not place near any source of water or potential flooding zones.

- Plug into a grounded electrical outlet. Do not plug into an extension cord or power strip.
- If plugged into an outlet controlled by a wall switch, assure that the switch is left in the on position and is never turned off.
- Ensure that the plugs in the housing are facing downwards.
- Do not exceed the electrical ratings.
- Keep away from children and pets.
- Do not open the unit to modify or repair it.
- Unplug from wall socket before cleaning.

Minimum Requirements

To install this product, you will need:

- A 802.11n/g router
- An Internet connection
- An e-mail account (required to register for mydlink service)
- The mydlink™ app is available for iPhone®, iPad® and Android™ devices. Please refer to the mobile app's store page to check whether your device is compatible.
- An available power outlet
- Wall space under the outlet to mount the device

FAQ

What do I do if my smart plug is not working properly?

Reset the smart plug and reinstall the smart plug. To reset your smart plug, press and hold the **Reset** button until the LED turns solid red.

During installation, ensure that:

- you have an Internet connection on your router
- your router's Wi-Fi is on
- your mobile device is connected to the Internet

How can I use voice commands to control my smart plug?

The smart plug will work with both Amazon Alexa and the Google Assistant. For setup instructions on these services, visit the following websites:

Alexa:
<https://www.dlink.com/en/alexa>

The Google Assistant:
<https://www.dlink.com/en/google-assistant>
