

<p style="text-align: center;"></p> <p style="text-align: center;">Finger Tips</p> <p style="text-align: center;">DAHL InTouch I GSM and WCDMA Dual sim-card Smart phone</p> <p style="text-align: center;">In Touch I DAHL</p> <p style="text-align: center;">DAHL SWEDEN MOBILE TECHNOLOGY AB</p> <p style="text-align: center;">Quick Start Guide</p>	<p>Welcome to Dahl Intouch.</p> <p>This Quick Start guide tells you how to set up your cell phone Intouch and use its key features. To start, turn on your Intouch by pressing and holding the On/Off button for a few seconds. Then follow the onscreen instructions to set up your Intouch.</p>  <p style="text-align: right;">On/Off Sleep/Wake</p>	<p>Button basics.</p> <p>To turn off or restart intouch, press and hold the On/Off button for a few seconds, then drag the slider to confirm. To turn off the screen but still receive calls, press On/Off once. Press the Home button at any time to return to the Home screen. To quickly switch between recently used apps, double-click the Home button and tap an app icon.</p>  <p style="text-align: right;">Home</p> <p style="text-align: left;">Volume Up/Down</p>	<p>Make a call.</p> <p>Tap a phone number in Contacts, Favorites, an email, a text message, or almost anywhere in intouch to make a call. Or open the Phone app and tap the Keypad button to dial manually. To silence an incoming call, press the On/Off button once. To send a call directly to voicemail, press On/Off twice. To answer a call while using the intouch headset, press the center button once. Press it again to end your call.</p> 	<p>Video call</p> <p>Requires a FaceTime-enabled device for both caller and recipient.</p> 	<p>Messages</p> <p>Tap the Messages icon to send an SMS or MMS to other mobile phone users. Type a name or phone number in the To field or select someone from your contacts. Type your message, then tap Send. To send photos or video, tap the Camera button.</p> 	<p>Intelligent keyboard</p> <p>Intouch automatically corrects and suggests words as you type. So if you tap a wrong letter, just keep typing. To accept the suggested word, tap the space bar. Or tap the "x" to ignore the suggestion. The keyboard automatically inserts apostrophes in contractions. If you tap the space bar twice, it adds a period. You can double-tap a word to look it up in the dictionary. To dictate rather than type, tap the Microphone button.</p> 	<p>Cut, copy, and paste</p> <p>Tap the text you want to edit, or touch and hold to bring up the magnifying glass, then slide your finger to move the insertion point. You can select a word by double-tapping it, and select more or less text by dragging the grab points. Then tap to cut, copy, or paste. To copy text from web pages, email, or text messages, touch and hold to select the text, then tap Copy.</p> 	<p>Notifications</p> <p>When you receive a notification, it appears briefly at the top of the screen without interrupting what you're doing. Ignore it or tap it to respond right away. To see a summary of your recent notifications, swipe down from the top of any screen. You can access a new notification from the Lock screen by sliding its icon to the right.</p>  <p style="text-align: left;">Notifications</p>

FCC Certification Requirements
Caution: Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.
3. The product shall only be connected to a USB interface of version USB2.1
4. Adapter shall be installed near the equipment and shall be easily accessible.
5. EUT Temperature:-10 °C ~+55°C
6. Adapter: The plug considered as disconnect device of adapter
Manufactory: DAHL
MODEL: KYT0500100BV
Input: 100-240Vac, 50/60Hz, Max 0.2A
Output: 5Vdc, 1A
7. The device complies with RF specifications when the device used at 1cm form your body

Specific Absorption Rate (SAR) information
SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value, in general, the closer you are to a wireless base station antenna, the lower the power output.
Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC,
Tests for each phone are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC.
For body worn operation, this model phone has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 1 cm from the body.
