Model No:BM1101
Quick Use Guide

Please read it carefully before using

Welcome to use

Dear Users:
Thank you for choosing our's BM1101 Bluetooth Speaker. In order to provide you a better User experience, we have provided detailed information to ensure correct operation and superior product performance.

Product Description & Parameter

Our's BM1101 appearance is beautiful, portable and easily fits the palm of your hands. We have used Industry's leading technology to bring to you the ultimate auditory experience. With Bluetooth V3.0 and a fast data transmission under 2.4GISM frequency, we bring to you the ultimate auditory experience. Its linear barrier-free transmission distance is around 10 meters.
With a sound quality so pure and a low distortion rate, the BM1101 is suitable for Laptops & other portable devices like Mobile Phones, Tablets etcetera.

Specifications

Power Output:	4W (RMS)	S/N Ration:	≥70dB
Distortion:	≤0.5%@1W	Drivers Unit:	2" 3Ω
Frequency:	100Hz~20KHz	Li-ion Battery:	3.7 V 500mAh
Working time:	≥5h	Bluetooth Version:	3.0 +EDR
Charging voltage:	DC5V, 500mA	Dimension:	W83×H74×D83mm
Bluetooth transmission distance: ≥10m			

Accessory List

On opening the package, please check the speaker mode marked on the box, and check the packing list according to the following:

speaker X 1 pcs

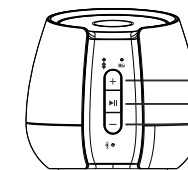

USB cables X 1 pcs

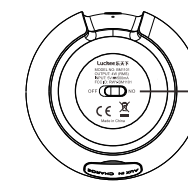

manual X 1 pcs

Product Function View

- ① Increase the volume
- ② Play/Pause
- ③ Decline the volume

- ④ Power on /off button

Product Features

- Bluetooth V3.0 +EDR
--More than 10 meters' Bluetooth distance.
- Voice Call
--After the phone connects to the bluetooth product, users can use "hands-free calling" function.
- Stereo and dual coil loudspeaker
--More real, more stable sound quality based on the design of the speaker.

FCC Statement:

Note: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- this device may not cause harmful interference, and
- this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful

interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.
Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
