V	Component	Descriptio

1 Power button Turns the speaker on or off when pressed. The speaker automatically connects to the last device paired through Bluetooth®. If it cannot find that device, it automatically enters pairing mode. To connect to a device through Bluetooth, see device documentation.

2 Volume down Decreases the volume when button pressed. Increases the volume when 3 Volume up button pressed. 4 Call button Answers or ends a call when

music when pressed. ♠ Audio-in jack Connects the speaker to a device. 6 Micro USB port Connects the speaker to power. Be sure to charge the speaker before

pressed. If connected to a device

through Bluetooth, plays or pauses

Power light Solid white: The speaker is paired or connected directly to an audio device. Blinking white and amber: The speaker is pairing. Blinking amber: The battery is low. Solid amber: The speaker is charging.

This product is rated IP-64, which means that it is protected against dust and splashing water. To maintain the IP-64 rating, close the I/O door. IP ratings are not a guarantee of future performance. Coverage for damage under IP-64 test conditions or any accidental damage requires the purchase of an optional HP Accidental Damage Protection Care Pack.

For regulatory and safety notices, refer to the *Product* Notices included with your product.

\*Cable not included
