■**About the phonebook in this system**

The following data is stored for every registered phone. When another phone is connecting, you cannot read the registered data.

● Phonebook data

● All of call history

● Speed dial

When you delete the phone, the above-mentioned data is also deleted.

■**When you release your car**

Be sure to initialize your data. (→P. 311)

■**About Bluetooth®**

STNAV00001

Bluetooth is a registered trademark of Bluetooth SIG. Inc.

The Bluetooth wordmark and logo are owned by Bluetooth SIG. and permission has been granted to use the trademark of the licensee FUJITSU TEN LIMITED. Other trademarks and trade names are owned by various different owners.

■**Compatible models**

This system supports the following service.

● Bluetooth® Specification:
Ver. 1.1 or higher (Recommended: Ver. 2.1 + EDR or higher)

● Profiles:

• HFP (Hands Free Profile) Ver. 1.0 or higher (Recommended: Ver. 1.5 or higher)
This is a profile to allow hands-free phone calls using the cellular phone or head sets. It has an outgoing and incoming call function.
• OPP (Object Push Profile) Ver. 1.1 or higher
This is a profile to exchange phonebook data. When the Bluetooth® phone has PBAP and OPP, OPP cannot be used.
• PBAP (Phone Book Access Profile) Ver. 1.0 or higher
This is a profile to transfer phonebook data.

If your cellular phone does not support HFP, you cannot enter the Bluetooth® phone. You need to take OPP or PBAP service individually.

■**Certification**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC WARNING:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CAUTION:

Radio Frequency Radiation Exposure

This equipment complies with FCC radiation exposure limits set forth for uncontrolled equipment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated with at least 20 cm and more between the radiator and person's body (excluding extremities: hands, wrists, feet and ankles).

Co-location:

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

3

Interior features

⚠ CAUTION

■**While driving**

Do not use the cellular phone or connect the Bluetooth® system.

⚠ NOTICE

■**When leaving the vehicle**

Do not leave your cellular phone in the vehicle. The inside of the vehicle may become hot, causing damage to the phone.

Using the Bluetooth® phone

381

Registering a Bluetooth® phone

To use the hands-free system, you must register a Bluetooth® phone in the system. You can register up to 5 phones in the system.

STEP 1 Display the "Telephone" screen. (→P. 381)

STEP 2

Telephone   No
                                    Connect
          Enter a telephone number
                                    ⬅
                                    ↩
          There are no telephones registered.
          Would you like to add one now?

          Yes   No

STNDA00042E

Touch "Yes".

STEP 3

Connect Bluetooth

          Registration waiting
          Operate the device to register it.
     Device name   : CAR MULTIMEDIA
     Device address : 0026E89E8DF7
     Passcode   : 0000

                   Cancel

STNDA00031E

Input the passcode displayed on the screen into your phone.

For the operation of the phone, see the manual that comes with your cellular phone.

Passcodes are not required for SSP (Secure Simple Pairing) compatible Bluetooth® devices. Depending on the phone, you may need to select "Yes" to register, or "No" to cancel on your cellular phone.

If you want to cancel it, select "Cancel".

If a completion message is displayed, registration is complete.

If an error message is displayed, follow the guidance on the screen to try again.

Selecting the Bluetooth® phone

If multiple Bluetooth® devices are registered, follow the procedure below to select the Bluetooth® device to be used. You may only use one device at a time.

STEP 1 Display the "Telephone" screen. (→P. 381)

STEP 2

STNDA00043E

Touch "Connect telephone".

STEP 3

STNDA00044E
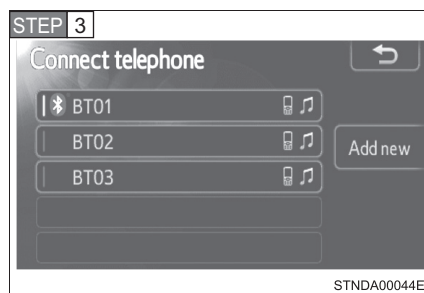

Touch the device to connect.

"Add new": Registering a Bluetooth® device. (→P. 409)

The selection indicator is displayed on left side of the selected device name.

The Bluetooth® mark is displayed when you connected the device.

3

Interior features

Connecting a Bluetooth® phone

There are two connecting methods available-automatic and manual.

Automatic

When you register your phone, auto connection will be activated. Always set it to this mode and leave the Bluetooth® phone in a place where connection can be established.

Vehicles without a smart entry & start system:
When the engine switch is turned to the "ACC" or "ON" position, the system will search for a nearby cellular phone you have registered.

Vehicles with a smart entry & start system:
When the "ENGINE START STOP" switch is turned to ACCESSORY or IGNITION ON mode, the system will search for a nearby cellular phone you have registered.

Next, the system automatically connects with the most recent of the phones connected to in the past. Then, the connection result is displayed.
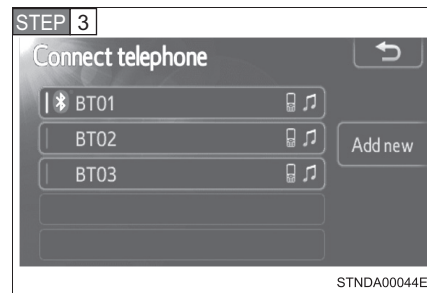

Manual

When the auto connection has failed or "Bluetooth*** power" is turned off, you must connect Bluetooth® manually.

***: Bluetooth is a registered trademark of Bluetooth SIG. Inc.

STEP 1 Display the "Telephone" screen. (→P. 381)

STEP 2

Touch "Connect telephone".

STNDA00043E

STEP 3

Touch the device to connect.

A message is shown if connection has been successful.

If connection fails, a message will be displayed and connection will be re-attempted.

STNDA00044E

3

Interior features

385

■**Reconnecting to the Bluetooth® phone**

Vehicles without a smart entry & start system:
If the system cannot connect due to poor signal strength with the engine switch in the "ACC" or "ON" position, the system will automatically attempt to reconnect.

Vehicles with a smart entry & start system:
If the system cannot connect due to poor signal strength with the "ENGINE START STOP" switch in ACCESSORY or IGNITION ON mode, the system will automatically attempt to reconnect.

If the phone is turned off, the system will not attempt to reconnect. In this case, connection must be made manually, or the phone must be re-selected.

■**Connecting the phone while Bluetooth® audio is playing**

● Bluetooth® audio will stop temporarily.

● It may take time to connect.

Making a call

Once the Bluetooth® phone is registered, you can make a call using the following procedure:

■ **Dialing**

STEP 1 Display the "Telephone" screen. (→P. 381)

STEP 2

Input the phone number.

To delete the inputted phone number, touch [←].

For the first digit, you can enter "+" by touching "∗" for a while.

STNDA00043E

STEP 3 Press ☎ on the steering wheel or touch [☎].

■ **Dialing from the phonebook**

You can dial a number from the phonebook data imported from your cellular phone. The system has one phonebook for each telephone. Up to 1000 entries may be stored in each phonebook. (→P. 398)
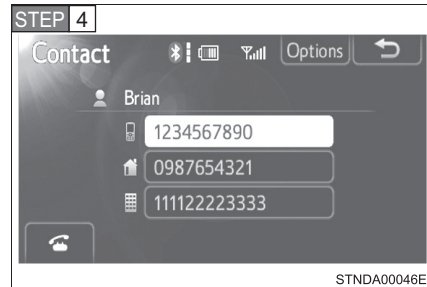

STEP 1 Display the "Telephone" screen. (→P. 381)

STEP 2 Touch "Contacts" on the "Telephone" screen.

STEP 3

STNDA00045E
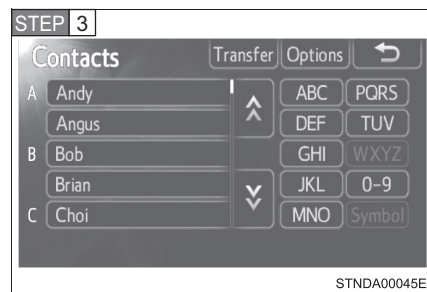

Choose the desired data to call from the list.

If the phonebook is empty, a message will be displayed. (→P. 388)

STEP 4

STNDA00046E

Choose the number and then press ☏ on the steering wheel or touch ☏.

3

Interior features

387

● When the phonebook is empty

You can transfer the phone numbers in your Bluetooth® phone to the system.
Operation methods differ between PBAP compatible and PBAP incompatible Bluetooth® phones. If your cellular phone does not support either PBAP or OPP service, you cannot transfer contacts.

STEP 1 Touch "Contacts" on the "Telephone" screen.

STEP 2

STNDA00047E

If the phonebook is empty, a message will be displayed.

For PBAP compatible Bluetooth® phone

STEP 3 Touch "Yes" if you want to transfer new contacts from a cellular phone.
Touch "No" if you want to cancel transferring the contacts.

For PBAP incompatible and OPP compatible Bluetooth® phone

STEP 3 Touch "Transfer" if you want to transfer new contacts from a cellular phone.
Touch "Cancel" if you want to cancel transferring the contacts.
You need to operate your phone to transfer new contacts.

■ **Calling using speed dial**

You can make a call using numbers registered from the phone-book.

STEP 1 Display the "Telephone" screen. (→P. 381)

STEP 2 Touch "Speed dials" on the "Telephone" screen.

STEP 3

STNDA00048E
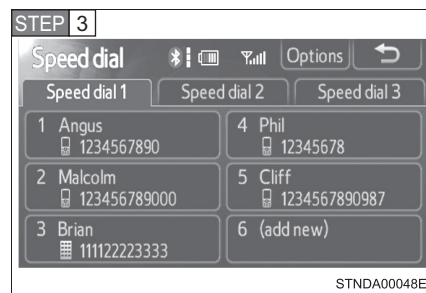

Select the desired tab and choose the desired number to make a call.

■ **Dialing from history**

You can call using the call history which has the 4 functions below.
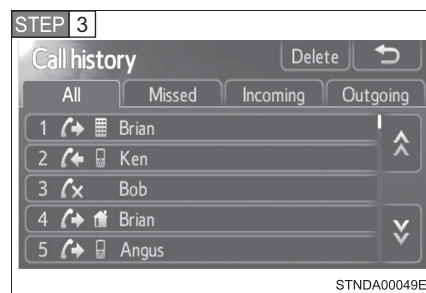

"All": all the calls below which were memorized

"Missed": calls which you missed

"Incoming": calls which you received

"Outgoing": calls which you called

STEP 1 Display the "Telephone" screen. (→P. 381)

STEP 2 Touch "Call history" on the "Telephone" screen.

STEP 3

STNDA00049E

Select the desired tab and choose the desired data from the list.
