3D PHONE SCREEN MAGNIFIER

INSTRUCTIONS

1. Before use, charge your screen magnifier using a Micro-USB charging cable, on the front panel.
2. Hold down the switch for 3 seconds to enter Bluetooth pairing mode.
3. Wait for "HY-PMG" to appear on your Bluetooth device, and pair with your phone.
4. Press Volume</>- for previous song. Press and hold for 3 seconds for volume down.
5. Press Volume</>+ for next song. Press and hold for 3 seconds for volume up.
6. When incoming calls rings, press the answer call button. Music pauses during the call and plays again at the end of the call.

3D PHONE SCREEN MAGNIFIER

SPECIFICATIONS:

Bluetooth Version: 5.0
Battery: 3.7V, 1200mAh
Screen Size: 8in
Operation Range: up to 33ft
Play Time: up to 5 hours
Charging Time: up to 3 hours

CONNECTION LOST?

- If pairing the phone screen magnifier does not work, turn off and repeat the steps again.
- Make sure your magnifier is within range of your smart device.
- If you hear a long beep, you need to recharge your phone screen magnifier. Connection may be lost due to low battery.
- When charging your phone screen magnifier, only use the enclosed USB cable.

Contact us if you have any problems at support@dglusa.com.

WARNING

Keep away from water and moisture. Keep away from heat sources. Do not disassemble.

3D PHONE SCREEN MAGNIFIER

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC INSTRUCTIONS FOR A CLASS B DIGITAL DEVICE OR PERIPHERAL

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

QUICK START GUIDE

3D PHONE SCREEN MAGNIFIER

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
