3. Volume - / Previous Song
4. Start up / Switch off

CHARGING THE SPEAKER

1.Plug the supplied USB cable into a USB socket of 5V charger and plug the other end of the USB cable into Bluetooth headset socket for charging.

2.The indicator light will turn red during charging. When the light goes out, the headset is fully charged. It needs around 1.5 hour to fully charge.

3.Fully charge the headset, otherwise the battery life will be impacted.

PROMPT NOTIFICATION

Starting up: Press on the pause function key "⏸" about 3 seconds until the indicator light shows up.
Switch off: Press on the pause function key "⏸" about 3 seconds until the indicator light show switch off status.

PAIRING THE HEADSET

1. Ensure the headset is turned on. If it is not, please turn on the headset first before pairing.

2. Place the headset and the Bluetooth® device to which you would like to pair it within the operating distance. We recommend keeping the two devices no further than 3 feet apart.

3.After starting up, the red light and blue light will flash, the headset will go into Bluetooth pairing mode.

4.Open the Bluetooth function on your phone and find the headset name and press (BMI-LEDHDPH) and the headset will connect.

5.When the headset shows pairing successful, the indicator light on headset will flash blue, that means the headset pairing was successful.

Note: If pairing is unsuccessful, turn off the headset first and re-pair following the mentioned steps. Once you have paired the headset with a device, the headset will remember this device and will pair automatically when the device's Bluetooth is activated and in range. You do not need to re-pair any previously connected devices.

OPERATING THE HEADSET

Once the headset is paired to your device, you can now listen to music wirelessly.

ANSWER AND DIAL

1.When the phone rings, press once quickly the phone key "📞" for answer, press twice quickly to refuse the call.

2.Press once quickly the phone key "📞" to hang up the phone during conversation.

3.When the music is playing, double-click the headset's phone key "📞" to re-dial the last phone number you called.

ADJUST VOICE VOLUME

Push the volume switch down to play previous song and turn the volume down.

Push the volume switch up to play next song and turn the volume up.

SPECIFICATIONS

Bluetooth® Version:	V5.4
Output:	30MW x 2
Frequency Range:	2402-2480MHz
Sensitivity:	90 dB
Play Time:	5-6 Hours
Battery Type:	Li-Ion
Battery Capacity:	200 mAh
Charging Voltage:	DC 5V
Charging Time:	About 1.5 Hours
Charging Interface:	Micro USB

CARE AND MAINTENANCE

- Do not expose the unit to excessive heat or humidity to avoid damage to the product's internal circuitry.
- Do not use abrasive cleaning solvents to clean the unit.
- Do not expose the unit to extremely high or low temperatures as this will shorten the life of the electronic device, destroy the battery, and/or distort certain plastic parts.
- Do not dispose of the unit in fire as they may explode or combust.
- Do not expose the unit to contact with sharp objects as this will cause scratches and damage.
- Do not let the unit fall from high places, as doing so may damage the internal circuitry.
- Do not attempt to disassemble the unit.

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's

authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
