

**Model:**

ST-353

Curve Wireless Optical Mouse

Features:

- Precision optical performance in an agile, modern design with USB micro receiver
- 2.4GHz RF technology offers wireless freedom with effective range up to 10 m (33 ft)
- Auto power management helps maintain proper battery levels
- On-board storage compartment protects USB receiver from loss and damage
- Ergonomic shape and no-slip texture provide secure grip
- Low-friction base smoothly glides over work surfaces
- Plug-and-play installation; Windows and Mac compatible
- One Year Warranty
- Material: ABS plastic
- Compatible with Windows and Mac

Dimensions:

- Mouse: 10.5*7.*4.2cm
- USB micro receiver: 1.9 x 1.5 x 0.6 cm (0.8 x 0.5 x 0.3 in.)

Environmental:

- Operational temperature: 0 – 45°C
- Storage temperature: -15 – 60°C
- Working humidity: <85%

Power:

2 x AAA batteries

Information to Users:

According to the FCC Part 15.19, 15.21, and 15.105 rules, for this EUT, the instructions or operation manual furnished the user shall include the following or similar statement, placed in a prominent location in the text of the manual:

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
